It Changed My Life Betty Friedan,1998 First published in 1976, this modern feminist classic brings back years of struggle for those who were there, and recreates the past for readers who were not yet born during these struggles for opportunity and respect to which women can now feel entitled. The Wisdom of the Vedas Jagadish Chatterji,2013-08-15 How did the universe come into being? What is the nature of God? Of the human spirit? All who seek understanding will find this book an illuminating presentation of India's oldest and most profound religious and philosophical tradition. The Wisdom of the Vedas was first published in 1931 by Kailas Press under the title India's Outlook on Life. The Theosophical Publishing House published a second edition in 1973, and again in 1980 under the Quest imprint. The present 1992 edition was edited to reflect the modern use of inclusive language, and includes an introduction by Vedic scholar David Frawley. Mr. Frawley explains to the Western reader, The Vedas are the original scripture or source teaching of the Hindu tradition, from which its many branches of Vedanta, Yoga, and Tantra have emerged through time, and to which they all look back with reverence. The Vedas are also ..the background relative to which the Buddhist religion evolved, and Buddhism also preserves many Vedic terms and practices. The study then, of the Vedas is important to understanding many different Eastern teachings. The author is from India, and has an unusual ability to frame the subtleties of Eastern thought for the Western world.

Scorchers Rosslyn Prosser,Paul Mountfort,2020 Scorchers is the first ever pan-Australasian anthology of climate fiction writings. Including pieces both by some of Australia and New Zealand's most celebrated authors, its sixteen contributors have responded to a deceptively simple provocation: How can writers--and by implication literature--respond within the short fiction format to the overwhelming reality of the climate crisis? The resulting collection of climate-fiction spans rural towns and futuristic metropolises, space stations and back gardens, familiar laneways and underground cities. Its themes of love, loss, despair and tentative hope transcend its immediate settings and speak urgently to the burning issue of our times.Publisher's description.
