Design Your Dream Wedding Rings Calla Gold,2019-01-25 Your wedding rings are the most important pieces of jewelry you'll ever have. As a symbol of love and a pledge of faithfulness they hold much. Making them unique is a fun and creative process. Author Calla Gold believes there is a jewelry designer in each one of us and that the jeweler's job is to ask questions and help find that design inside of you. In this book you'll find examples of textures and details that add definition to your design, that evoke a feeling or vibe. You'll see how your lifestyle effects your ring design choices. You'll read stories like the way Marlo and Ben used family diamonds in their designs, how the right shaped center diamond helped Kaitlyn's short fingers look longer, and how a Rock and Roll drummer chose a special finish to make his fiancé's ring pop. Questions like these will be answered; what's the difference between platinum and white gold? What engraving techniques are out there and which ones would work for you? Is rose gold a safe choice with tiny prongs? What's the difference between the engagement ring and the wedding band? What are good gemstone alternatives to a diamond in the center?This book is your guide to creating your dream engagement and wedding rings.

Blue Nile, Inc Alan Nathan Hoffman, 2011 Built on the premise of making engagement rings selection simpler, Blue Nile, Inc. (formerly known as Internet Diamonds, Inc.) has developed into the largest online retailer of diamond engagement rings. Unlike traditional jewelry retailers, Blue Nile operates completely store-front-free, without in-person consultation services. The business conducts all sales online or by phone and sales include both engagement (70%) and non-engagement (30%) categories. Therefore, the company focuses on perfecting its online shopping experience and providing extraordinary jewelry, useful guidance, and easy-to-understand jewelry education to help you find the jewelry that's perfect for your occasion. Blue Nile's vision is to educate its customer base so that customers can make an informed, confident decision no matter what event they are celebrating. It wants to make the entire diamond-buying-process easy and hassle-free. In addition, an important part of Blue Nile's vision, as CEO Diane Irvine said in a recent webinar with Kaihan Krippendorf, is for the company to be seen as the smart way to buy diamonds, while saving 20-40% more than one would in the typical jewelry store. Blue Nile is working to become the Tiffany for the next generation.

Marine Wastewater Outfalls and Treatment Systems Philip J. W. Roberts, Henry J. Salas, Fred M. Reiff, Menahem Libhaber, Alejandro Labbe, James C. Thomson, 2010-09-19 Wastewater disposal by marine outfalls is proven and effective and is a reliable and cost effective solution with minimal environmental impacts. The design and siting of submarine outfalls is a complex task that relies on many disciplines including oceanography, civil and environmental engineering, marine biology, construction, economics, and public relations. Marine Wastewater Outfalls and Treatment Systems brings these disciplines together and outlines all tasks involved in the planning and design of a wastewater system involving a marine outfall. This book concerns the design of marine wastewater disposal systems: that is an ocean outfall plus treatment plant. All aspects of outfall design and planning are covered, including water quality design criteria, mathematical modelling of water quality and dilution, gathering required oceanographic data, appropriate wastewater treatment for marine discharges, construction materials for marine pipelines, forces on pipelines and outfall design, outfall hydraulics, outfall construction, tunnelled outfalls, operation and maintenance, monitoring, case studies are discussed and methods for gaining public acceptance for the project are presented. Finally, costs for many outfalls around the world are summarized and methods for estimating costs are given. This is the first book to consider all aspects of marine outfall planning and construction. The authors are all extensively involved with outfall schemes and aware of recent developments. The science and technology of all aspects of outfall discharges into coastal waters and estuaries of treated municipal or industrial wastewater has advanced considerably over the past few years. Marine Wastewater Outfalls and Treatment Systems provides an up to date and comprehensive summary of this rapidly developing area.
