Design Your Dream Wedding Rings Calla Gold, 2019-01-25 Your wedding rings are the most important pieces of jewelry you'll ever have. As a symbol of love and a pledge of faithfulness they hold much. Making them unique is a fun and creative process. Author Calla Gold believes there is a jewelry designer in each one of us and that the jeweler's job is to ask questions and help find that design inside of you. In this book you'll find examples of textures and details that add definition to your design, that evoke a feeling or vibe. You'll see how your lifestyle effects your ring design choices. You'll read stories like the way Marlo and Ben used family diamonds in their designs, how the right shaped center diamond helped Kaitlyn's short fingers look longer, and how a Rock and Roll drummer chose a special finish to make his fiancé's ring pop. Questions like these will be answered; what's the difference between platinum and white gold? What engraving techniques are out there and which ones would work for you? Is rose gold a safe choice with tiny prongs? What's the difference between the engagement ring and the wedding band? What are good gemstone alternatives to a diamond in the center? This book is your guide to creating your dream engagement and wedding rings.

Indian Kāvya Literature A. K. Warder, 1972 This volume on the twelfth and thirteenth centuries starts with Vidyakara`s retrospect over anonymous poets (named ones having mostly found their places in earlier volumes). After some smaller anthologies a few novels and Mankhaka`s mythological epic we come to a historical epic. History is the most substantial source of matter for literature in the volume. That might seem to contrast with Vol. Vi, but as literature its aim is always are, not facts which narrows the gap.

Belk, 2013-01-11 This groundbreaking book examines the relationship between the development of the consumer society and the rise of collecting by individuals and institutions. It also looks at aspects of consumer culture - advertising, department stores, mass merchandizing, consumer desires, and how this relates to the activity of collecting. The Maeander Valley Peter Thonemann, 2011-09-22 This book is a study of the long-term historical geography of Asia Minor, from the fourth century BC to the thirteenth century AD. Using an astonishing breadth of sources, ranging from Byzantine monastic archives to Latin poetic texts, ancient land records to hagiographic biographies, Peter Thonemann reveals the complex and fascinating interplay between the natural environment and human activities in the Maeander valley. Both a large-scale regional history and a profound meditation on the role played by geography in human history, this book is an essential contribution to the history of the Eastern Mediterranean in Graeco-Roman antiquity and the Byzantine Middle Ages.
