Design Your Dream Wedding Rings Calla Gold, 2019-01-25 Your wedding rings are the most important pieces of jewelry you'll ever have. As a symbol of love and a pledge of faithfulness they hold much. Making them unique is a fun and creative process. Author Calla Gold believes there is a jewelry designer in each one of us and that the jeweler's job is to ask questions and help find that design inside of you. In this book you'll find examples of textures and details that add definition to your design, that evoke a feeling or vibe. You'll see how your lifestyle effects your ring design choices. You'll read stories like the way Marlo and Ben used family diamonds in their designs, how the right shaped center diamond helped Kaitlyn's short fingers look longer, and how a Rock and Roll drummer chose a special finish to make his fiancé's ring pop. Questions like these will be answered; what's the difference between platinum and white gold? What engraving techniques are out there and which ones would work for you? Is rose gold a safe choice with tiny prongs? What's the difference between the engagement ring and the wedding band? What are good gemstone alternatives to a diamond in the center? This book is your guide to creating your dream engagement and wedding rings.

The Ardabil Carpets Rexford Stead,1974-01-01 The richness of Near Eastern art is epitomized by sixteenth- and seventeenth-century Persian carpets. Among the finest ever produced, the two Ardabil carpets are believed to have been made as offerings for the Shrine of Sheikh Safi at Ardabil during the Safavid dynasty in sixteenth-century Persia. In this text Rexford Stead, deputy director of the Los Angeles County Museum of Art, explores the intricacies of the Ardabil carpets—one formerly in the Getty Museum and now in the Los Angeles County Museum of Art, and the other in the Victoria and Albert

Museum, London. A bibliography and exhibition history are included.

Abandoned Children of the Italian Renaissance Nicholas Terpstra, 2020-04-07 In the early development of the modern Italian state, individual orphanages were a reflection of the intertwining of politics and charity. Nearly half of the children who lived in the cities of the late Italian Renaissance were under fifteen years of age. Grinding poverty, unstable families, and the death of a parent could make caring for these young children a burden. Many were abandoned, others orphaned. At a time when political rulers fashioned themselves as the fathers of society, these cast-off children presented a very immediate challenge and opportunity. In Bologna and Florence, government and private institutions pioneered orphanages to care for the growing number of homeless children. Nicholas Terpstra discusses the founding and management of these institutions, the procedures for placing children into them, the children's daily routine and education, and finally their departure from these homes. He explores the role of the city-state and considers why Bologna and Florence took different paths in operating the orphanages. Terpstra finds that Bologna's orphanages were better run, looked after the children more effectively, and were more successful in returning their wards to society as productive members of the city's economy. Florence's orphanages were larger and harsher, and made little attempt to reintegrate children into society. Based on extensive archival research and individual stories, *Abandoned Children of the Italian Renaissance* demonstrates how gender and class shaped individual orphanages in each city's network and how politics, charity, and economics intertwined in the development of the early modern state.

Murder and Martyrdom in Spanish Florida John Michael Francis, Kathleen M. Kole, David Hurst Thomas, 2011 In the late fall of 1597, Guale Indians murdered five Franciscan friars stationed in their territory and razed their missions to the ground. The 1597 Guale Uprising, or Juanillo's Revolt as it is often called, brought the missionization of Guale to an abrupt end and threatened Florida's new governor with the most significant crisis of his term. To date, interpretations of the uprising emphasize the primacy of a young Indian from Tolomato named Juanillo, the heir to Guale's paramount chieftaincy. According to most versions of the uprising story, Tolomato's resident friar publicly reprimanded Juanillo for practicing polygamy. In his anger, Juanillo gathered his forces and launched a series of violent assaults on all five of Guale territory's Franciscan missions, leaving all but one of the province's friars dead. Through a series of newly translated primary sources, many of which have never appeared in print, this volume presents the most comprehensive examination of the 1597 uprising and its aftermath. It seeks to move beyond the two central questions that have dominated the historiography of the uprising, namely who killed the five friars and why, neither of which can be answered with any certainty. Instead, this work aims to

use the episode as the background for a detailed examination of Spanish Florida at the turn of the 17th century. Viewed collectively, these sources not only challenge current representations of the uprising, they also shed light on the complex nature of Spanish-Indian relations in early colonial Florida.

Renaissance Ethnography and the Invention of the Human Surekha Davies, 2016-06-02 Giants, cannibals and other monsters were a regular feature of Renaissance illustrated maps, inhabiting the Americas alongside other indigenous peoples. In a new approach to views of distant peoples, Surekha Davies analyzes this archive alongside prints, costume books and geographical writing. Using sources from Iberia, France, the German lands, the Low Countries, Italy and England, Davies argues that mapmakers and viewers saw these maps as careful syntheses that enabled viewers to compare different peoples. In an age when scholars, missionaries, native peoples and colonial officials debated whether New World inhabitants could – or should – be converted or enslaved, maps were uniquely suited for assessing the impact of environment on bodies and temperaments. Through innovative interdisciplinary methods connecting the European Renaissance to the Atlantic world, Davies uses new sources and questions to explore science as a visual pursuit, revealing how debates about the relationship between humans and monstrous peoples challenged colonial expansion.

An Overview of the Pre-suppression Society of Jesus in Spain Patricia W. Manning, 2020-12-03 In An Overview of the Pre-suppression Society of Jesus in Spain, Patricia W. Manning offers a survey of the Spanish Society of Jesus from its origins in Ignatius of Loyola's early preaching to the aftereffects of its expulsion.

Bunker Bradley Garrett, 2021-08-03 Since prehistory, bunkers have been built as protection from cataclysmic social and environmental forces, and as places of power and transformation. Today, the bunker has become the extreme expression of our greatest fears- from pandemics to climate change and nuclear war. And once you look, it doesn't take long to start seeing bunkers everywhere. In Bunker, acclaimed urban explorer and cultural geographer Bradley Garrett explores the global and rapidly growing movement of 'prepping' for social and environmental collapse, or 'Doomsday'. From the 'dread merchants' hustling safe spaces in the American mid-West to eco-fortresses in Thailand, from geoscrapers to armoured mobile bunkers, Bunker is a brilliant, original and never less than deeply disturbing story from the frontlines of the way we live now, an illuminating reflection on our age of disquiet and dread that brings it into new, sharp focus. The bunker, Garrett shows, is all around us, in malls, airports, gated communities, the vehicles we drive. Most of all, he shows, it's in our minds.
