Design Your Dream Wedding Rings Calla Gold, 2019-01-25 Your wedding rings are the most important pieces of jewelry you'll ever have. As a symbol of love and a pledge of faithfulness they hold much. Making them unique is a fun and creative process. Author Calla Gold believes there is a jewelry designer in each one of us and that the jeweler's job is to ask questions and help find that design inside of you. In this book you'll find examples of textures and details that add definition to your design, that evoke a feeling or vibe. You'll see how your lifestyle effects your ring design choices. You'll read stories like the way Marlo and Ben used family diamonds in their designs, how the right shaped center diamond helped Kaitlyn's short fingers look longer, and how a Rock and Roll drummer chose a special finish to make his fiancé's ring pop. Questions like these will be answered; what's the difference between platinum and white gold? What engraving techniques are out there and which ones would work for you? Is rose gold a safe choice with tiny prongs? What's the difference between the engagement ring and the wedding band? What are good gemstone alternatives to a diamond in the center? This book is your guide to creating your dream engagement and wedding rings.

In the Sultan's Salon: Learning, Religion, and Rulership at the Mamluk Court of Qāniṣawh al-Ghawrī (r. 1501-1516) (2 vols) Christian Mauder,2021-08-09 Building on his award-winning research, Christian Mauder's *In the Sultan's Salon* constitutes the first detailed study of the intellectual, religious, and political culture of the court of the

Mamluk Sultanate (1250-1517), one of the most important polities in Islamic history.

An Introduction to the History of the Principal Kingdoms and States of Europe Samuel Freiherr von Pufendorf, 2013 Samuel Pufendorf was a pivotal figure in the early German Enlightenment. His version of voluntarist natural law theory had a major influence both on the European continent and elsewhere in the English-speaking world, particularly Scotland and America. Pufendorf's *An Introduction to the History of the Principal Kingdoms and States of Europe* (1682) became one of his most famous and widely reprinted works. It went through multiple editions during the eighteenth century, but its impact has largely been forgotten. Pufendorf's histories exhibited the core notions of his natural law theory by describing the development and current, reciprocal relations of individual states as collective social agents engaged in securing their own and, thus, their members' interests, including self-preservation. Hence, they essentially functioned as vehicles for philosophical demonstration or justification. Moreover, by emphasizing empirical details and legitimating (in principle) a de facto politics of interest, the histories appealed strongly to the emerging nation-states of early modern Europe, which sought ratification of their external and internal actions, policies, and pedagogies. Pufendorf based his accounts on each country's own historians and took care to describe its position from its own current and historical perspectives. It was an appealing approach to political history, judging from the long and diverse publishing record of the work. This book will be of interest to anyone concerned with the history of international law and the development of historiography during the seventeenth and eighteenth centuries. It makes available to contemporary scholars and students a carefully edited, helpfully annotated, and historically situated English version of one of Pufendorf's most popular and influential works. Samuel Pufendorf (1632-1694) was one of the most important figures in early-modern political thought. An exact contemporary of Locke and Spinoza, he transformed the natural law theories of Grotius and Hobbes, developed striking ideas of toleration and of the relationship between church and state, and wrote extensive political histories and analyses of the constitution of the German empire. Jodocus Crull (d. 1713/14) was a German émigré to England, a medical man, and a translator and writer. Michael J. Seidler is Professor of Philosophy at Western Kentucky University. Knud Haakonssen is Professor of Intellectual History at the University of Sussex, England.

China's Old Dwellings Ronald G. Knapp, 2019-03-31 China's Old Dwellings is the most comprehensive critical examination of China's folk architectural forms in any language. It and its companion volume, *China's Living Houses: Folk Beliefs, Symbols, and Household Ornamentation* (UH Press, 1999), together form a landmark study of the environmental, historical, and social factors that influence housing forms for nearly a quarter of the world's population. Both books draw on the author's thirty years of fieldwork and extensive travel in China as well as published and unpublished material in many languages. *China's Old Dwellings* begins by tracing the interest in Chinese vernacular buildings in the twentieth century. Early chapters detail common and distinctive spatial components, including the interior and exterior modular spaces that are axiomatic components of most Chinese dwellings as well as conventional structural components and building materials common in Chinese construction. Later chapters examine representative housing types in the three broad cultural realms--northern, southern, and western--into which China has been divided. Knapp completes his survey with an exploration of China's old dwellings in the context of the rapid economic and social changes that are destroying so many of them.

Global Hakka Jessieca Leo, 2015-08-25 In *Global Hakka: Hakka Identity in the Remaking* Jessieca Leo offers a needed update on Hakka history and a reassessment on Hakka identity in the global and transnational contexts, and views the concept of 'being Hakka' in the 21st century as Hakkaness - a quality determined by lifestyle and personal choice.
