Cities as Sustainable Ecosystems Peter Newman, Isabella Jennings, 2012-09-26 Modern city dwellers are largely detached from the environmental effects of their daily lives. The sources of the water they drink, the food they eat, and the energy they consume are all but invisible, often coming from other continents, and their waste ends up in places beyond their city boundaries. *Cities as Sustainable Ecosystems* shows how cities and their residents can begin to reintegrate into their bioregional environment, and how cities themselves can be planned with nature's organizing principles in mind. Taking cues from living systems for sustainability strategies, Newman and Jennings reassess urban design by exploring flows of energy, materials, and information, along with the interactions between human and non-human parts of the system. Drawing on examples from all corners of the world, the authors explore natural patterns and processes that cities can emulate in order to move toward sustainability. Some cities have adopted simple strategies such as harvesting rainwater, greening roofs, and producing renewable energy. Others have created biodiversity parks for endangered species, community gardens that support a connection to their foodshed, and pedestrian-friendly spaces that encourage walking and cycling. A powerful model for urban redevelopment, *Cities as Sustainable Ecosystems* describes aspects of urban ecosystems from the visioning process to achieving economic security to fostering a sense of place.

Lion of Hollywood Scott Eyman, 2008-06-23 *Lion of Hollywood* is the definitive biography of Louis B. Mayer, the chief of Metro-Goldwyn-Mayer—MGM—the biggest and most successful film studio of Hollywood's Golden Age. An immigrant from tsarist Russia, Mayer began in the film business as an exhibitor but soon migrated to where the action and the power were—Hollywood. Through sheer force of energy and foresight, he turned his own modest studio into MGM, where he became the most powerful man in Hollywood, bending the film business to his will. He made great films, including the fabulous MGM musicals, and he made great stars: Garbo, Gable, Garland, and dozens of others. Through the enormously successful Andy Hardy series, Mayer purveyed family values to America. At the same time, he used his influence to place a federal judge on the bench, pay off local officials, cover up his stars' indiscretions and, on occasion, arrange marriages for gay stars. Mayer rose from his impoverished childhood to become at one time the highest-paid executive in America. Despite his power and money, Mayer suffered some significant losses. He had two daughters: Irene, who married David O. Selznick, and Edie, who married producer William Goetz. He would eventually fall out with Edie and divorce his wife, Margaret, ending

his life alienated from most of his family. His chief assistant, Irving Thalberg, was his closest business partner, but they quarreled frequently, and Thalberg's early death left Mayer without his most trusted associate. As Mayer grew older, his politics became increasingly reactionary, and he found himself politically isolated within Hollywood's small conservative community. *Lion of Hollywood* is a three-dimensional biography of a figure often caricatured and vilified as the paragon of the studio system. Mayer could be arrogant and tyrannical, but under his leadership MGM made such unforgettable films as *The Big Parade*, *Ninotchka*, *The Wizard of Oz*, *Meet Me in St. Louis*, and *An American in Paris*. Film historian Scott Eyman interviewed more than 150 people and researched some previously unavailable archives to write this major new biography of a man who defined an industry and an era.

From Under My Hat Hedda Hopper, 2017-04-20 Hedda Hopper came into this world screaming, and she liked to say that she never stopped. Decades after, she could still out-shout any producer in Hollywood, and she wasn't afraid to do whatever it took to get her way. One of the most glamorous stars of the silent era, Hopper became one of the most notorious gossip columnists in the country, whose acid wit and razor-sharp pen fearlessly attacked the biggest names in Hollywood. In *From Under My Hat*, she tells her story as only she can. From her birth in the suburbs of Pennsylvania, to her early days as a Broadway understudy to her rise and fall as a Hollywood starlet, Hopper tells the story of the golden age of the movie business with candor and grace. At the height of her popularity, 20,000,000 read Hopper's column. Reading her searing autobiography, it's easy to see why. Hedda Hopper is portrayed by Judy Davis in the Ryan Murphy TV series *Feud* about Joan Crawford and Bette Davis.

Native to Nowhere Timothy Beatley, 2004 In *Native to Nowhere*, renowned author Tim Beatley draws on extensive research and travel to communities across North America and Europe to offer a practical examination of the concepts of place and place-building in contemporary life. He reviews the many current challenges to place, considers trends and factors that have undermined our sense of place, and describes a number of innovative ideas and compelling visions for strengthening our places.--Jacket

Ripples from the Zambezi Ernesto Sirotli, 1999-04-01 After six years of economic development work in Africa, Ernesto Sirotli witnessed how little most foreign aid programs were actually doing for the people they hoped to help-from creating a communal tomato field on the banks of the Zambezi river (only to be demolished by the river's hippos at harvest time) to donating snow-plows to African nations! However well intentioned, Sirotli points out, inappropriate development often creates more problems than it solves. Thus was the genesis of this exciting and unique alternative to traditional economic development termed Enterprise Facilitation- where depressed communities can build hope and prosperity by first helping individuals to recognize their talents and business passion, and then providing the skills to transform their dreams into meaningful and rewarding work.

The Key to Sustainable Cities Gwendolyn Hallsmith, 2003-09-01 Most of the world's population now live in cities, but despite wide agreement on the core values of sustainable societies, municipalities are so busy solving current problems, they don't have the time or resources to plan effective action for sustainability. The Key to Sustainable Cities uses the principles of system dynamics to demonstrate how today's problems were yesterday's solutions. The book points to a new approach to city planning that builds on assets as a starting point for cities to develop healthy social, governance, economic, and environmental systems. Gwendolyn Hallsmith has worked to build sustainable communities for over twenty years as a municipal manager, a regional planning director, and with the Institute for Sustainable Communities. She lives in Marshfield, Vermont.

The Art of City Making Charles Landry, 2012-05-16 City-making is an art, not a formula. The skills required to re-enchant the city are far wider than the conventional ones like architecture, engineering and land-use planning. There is no simplistic, ten-point plan, but strong principles can help send good city-making on its way. The vision for 21st century cities must be to be the most imaginative cities for the world rather than in the world. This one change of word - from 'in' to 'for' - gives city-making an ethical foundation and value base. It helps cities become places of solidarity where the relations between the individual, the group, outsiders to the city and the planet are in better alignment. Following the widespread success of The Creative City, this new book, aided by international case studies, explains how to reassess urban potential so that cities can strengthen their identity and adapt to the changing global terms of trade and mass migration. It explores the deeper fault-lines, paradoxes and strategic dilemmas that make creating the 'good city' so difficult.

Police State America Tom Burghardt, 2002 In shocking detail, the meticulously researched articles in this anthology expose the national security state's sinister blueprint for destroying democracy and crushing dissent. Deploying 'civil disturbance' strategies as part of a comprehensive doctrine of 'homeland defense', police, national guard and elite Army counterinsurgency units are gearing up for 'operations other than war' in US cities. Contributors include Frank Morales, Michael Novick, Ron Ridenhour, Arthur Lubow, Mitzi Waltz and Douglas Valentine.

Code Names William M. Arkin, 2005 Identifies more than 3,000 codenames used by the U.S. Military since the wars in Iraq and Afghanistan and details the plans and missions for which they stand. Arkin examines the explosion in code names and coded strategies in the light of the War on Terror, lists the actual codes and reasons for their existence and offers a

directory of countries with whom the U.S. are militarily or covertly involved. Includes a glossary of terms and acronyms.

The Secret Team L. Fletcher Prouty,2011-04-01 The Secret Team, L. Fletcher Prouty's CIA exposé, was first published in the 1970s, but virtually all copies of the book disappeared upon distribution, purchased en masse by shady private buyers. Certainly Prouty's amazing allegations—that the U-2 Crisis of 1960 was fixed to sabotage Eisenhower-Khrushchev talks, and that President Kennedy was assassinated to keep the U.S., and its defense budget, in Vietnam—cannot have pleased the CIA. Though suppressed (until now), The Secret Team was an important influence for Oliver Stone's Academy Award-winning film JFK and countless other works on U.S. government conspiracies, and it raises the same crucial question today that it did on its first appearance: who, in fact, is in control of the United States and the world?

Project Beta Greg Bishop,2005-02-08 The shocking true story of the United States government's quest to hide the reality of extraterrestrial contact, even at the cost of its citizens. In 1978, Paul Bennewitz, an electrical physicist living in Albuquerque, New Mexico, became convinced that the strange lights he saw hovering in the night sky were extraterrestrial. He reached out to newspapers, senators, and even the president before anyone responded. Air Force investigators listened to his story, as did Bill Moore, the author of the first book on the infamous Roswell UFO incident. Unbeknownst to Bennewitz, Moore was hired by a group of intelligence agents to keep tabs on Bennewitz while the Air Force ran a psychological profile and disinformation campaign on the unsuspecting physicist. In return, Air Force Intelligence would let Moore in on classified UFO material. What follows is a scandalous true tale of disinformation, corruption, and exploitation, all at the hands of the

United States intelligence community.
