Fibula, Fabula, Fact Joonas Ahola,Frog,Clive Tolley,2018-03-01 Were there Vikings in Finland? Fibula, Fabula, Fact - The Viking Age in Finland is intended to provide essential foundations for approaching the Viking Age in Finland. The volume consists of a general introduction followed by nineteen chapters and a closing discussion. The nineteen chapters are oriented to provide introductions to the sources, methods and perspectives of diverse disciplines. Discussions are presented from fields including archaeology, folklore studies, genetics, geopolitics, historiography, language history, linguistics, palaeobotany, semiotics and toponymy. Each chapter is intended to help open the resources and the history of discourse of the particular discipline in a way that will be accessible to specialists from other fields, specialists from outside Finland, and also to non-specialist readers and students who may be more generally interested in the topic.

The Bioarchaeology of Ritual and Religion Alexandra Livarda,Richard Madgwick,Santiago Riera Mora,2017-12-21 The Bioarchaeology of Ritual and Religion is the first volume dedicated to exploring ritual and religious practice in past societies from a variety of 'environmental' remains. Building on recent debates surrounding, for instance, performance, materiality and the false dichotomy between ritualistic and secular behavior, this book investigates notions of ritual and religion through the lens of perishable material culture. Research centering on bioarchaeological evidence and drawing on methods from archaeological science has traditionally focused on functional questions surrounding environment and economy. However, recent years have seen an increased recognition of the under-exploited potential for scientific data to provide detailed information relating to ritual and religious practice. This volume explores the diverse roles of plant, animal, and other organic remains in ritual and religion, as foods, offerings, sensory or healing mediums, grave goods, and worked artifacts. It also provides insights into how archaeological science can shed light on the reconstruction of ritual processes and the framing of rituals. The 14 papers showcase current and new approaches in the investigation of bioarchaeological evidence for elucidating complex social issues and worldviews. The case studies are intentionally broad, encompassing a range of sub-disciplines of bioarchaeology including archaeobotany, anthracology, palynology, micromorphology, geoarchaeology,

zooarchaeology (including avian and worked bone studies), archaeomalacology, and organic residue analysis. The temporal and geographical coverage is equally wide, extending across Europe from the Mediterranean and Aegean to the Baltic and North Atlantic regions, and from the Mesolithic to the medieval period. The volume also includes a discursive paper by Prof. Brian Hayden, who suggests a different interpretative framework of archaeological contexts and rituals.

Moanin' Low Ross Laird, 1996-11-25 The first comprehensive guide to pre-1934 female popular vocal recordings sung in English—from around the world and including all styles—this discographical study includes solos, duets, trios, and quartets composed by the great songwriters of the early 1900s (from Irving Berlin to Victor Young). The majority of the listings includes material that has not been previously published, and a large number of entries profile such prolific artists as Helen Clark and Gladys Rice, who are not in previous discographies. A special feature includes data on sound-on-disc recording made for early talking-picture musical shorts (especially by Vitaphone) that is not documented elsewhere. A comprehensive title index includes composer credits for the majority of the titles listed. A History of the Chaco Navajos David M. Brugge, 1980 In the present report, David Brugge, a National Park Service anthropologist and a recognized authority on the Athabaskans of the Southwest, carefully and meticulously details the history of the Navajo people of the Chaco area. Brugge's account is fundamentally descriptive and consciously impartial. Yet at times he presents us alternative views to the published accounts of historical events of the area, offering the Navajo version as gleaned from interviews with the old people themselves.

Bombay 3 Jitendra Dixit,2021-03-18 Mumbai is an ever-evolving city, bustling and brimming, never sleeping for a wink. But the past four decades brought upheavals of great magnitude that shaped the city as we know today. Marred by communal riots, gang wars and terrorism, the spirit of Mumbai has emerged indomitable every single time. Born and raised in the lanes of Bombay 3, this is the story of Jagan Kumar who dreams of being a television journalist and changing the world. But once he achieves this, he realises that television journalism has lost its path, now afflicted with sensationalism, corruption and bias. As a crime reporter, he comes across various unscrupulous means that law enforcement agencies adopt to combat organised crime syndicates. He is shocked to witness interdepartmental rivalry that often jeopardises public security. Disenchanted, in conflict with his conscience and confused about his calling, he is about to quit when something happens that changes the course of his life. Bombay 3 begins from the bylanes of old Bombay of the seventies and then takes you to Mosul in ISIS's Iraq of 2014 and finally to the streets of Bangkok where the underworld of Mumbai has spread its tentacles. A fast-paced thriller, it answers certain questions about life in Mumbai and raises a few new ones.

Berliner Gramophone Records ,1995-05-30 Just over 100 years ago, Emile Berliner invented the gramophone and disc record. This is the first discography assembled of the first disc recordings in the United States. It documents over 3,000 discs, which were sold to the American public from 1892 to 1900. Listings are arranged by catalogue number and cross-indexed by title, performer, and recording date. The gramophone discs are valuable research tools in the study of popular culture, providing objective data about what was offered to the public, and how it was performed. Since this information has never been published, scholars may well find new materials. Berliner's successor was the Victor Talking Machine Company

(an ongoing Greenwood discography series). An introductory essay discusses the earliest years of the invention and the repertoire appearing on the discs. Their physical properties are noted and illustrated with photographs of the records. A descriptive bibliography guides readers to other books and articles of interest. Another section lists Berliner Gramophone records that have been reissued on long-playing and compact discs. This volume will be of interest to gramophone record collectors, record archives, and music libraries, as well as to scholars, music students, and buffs.

Oldest Stories in the World Theodor H. Gaster, 2018-09 This book was assembled by a scholar of language and religion in order to bring together the best collection of the oldest stories known to man. They are older than anything in the Bible, or than Homer, or than the epic poems of India. They were recovered from the ruins of ancient cities and were originally written and told by the Assyrians and Babylonians of Mesopotamia, as well as the Hittites and Canaanites. There are 13 stories in all, some of which the reader will recognize, but others that are rarely or never seen anywhere else. Stories, in their order of appearance, are: The Adventures of Gilgamesh, The War of the Gods, Borrowed Plumes, The Lost Chance, How Toothache Came into the World, The God Who Disappeared, The Monster Made of Stone, The Snaring of the Dragon, Kessi and Huntsman, Master Good and Master Bad, The Heavenly Bow, The King Who Forgot, and The Story of Baal. The author was once the chief of the Hebraic section of the Library of Congress and the first to do a complete translation of the Dead Sea Scriptures in English. An invaluable bonus is that he shares his vast knowledge and expertise after each story with a commentary, including cross-cultural comparisons and a host of other interesting facts. For example, after The Story of Baal he tells us that the main story came from cuneiform tablets in Syria, but its' ending was discovered on a fragment of papyrus in Egypt. This book is essential for those researching the first cultures of mankind or the earliest stories of the gods.
