Ritual Abuse and Mind Control Orit Badouk Epstein,2018-03-22 People who have survived ritual abuse or mind control experiments have often been silenced, accused of lying, mocked and disbelieved. Clinicians working with survivors often find themselves isolated, facing the same levels of disbelief and denial from other professionals within the mental health field. This report - based on proceedings from a conference on the subject - presents knowledge and experience from both clinicians and survivors to promote understanding and recovery from organized and ritual abuse, mind control and programming. The book combines clinical presentations, survivors' voices, and research material to help address the ways in which we can work clinically with mind control and cult programming from the perspective of relational psychotherapy.

The Palgrave Handbook on Art Crime Saskia Hufnagel,Duncan Chappell,2019-06-27 This handbook showcases studies on art theft, fraud and forgeries, cultural heritage offences and related legal and ethical challenges. It has been authored by prominent scholars, practitioners and journalists in the field and includes both overviews of particular art crime issues as well as regional and national case studies. It is one of the first scholarly books in the current art crime literature that can be utilised as an immediate authoritative reference source or teaching tool. It also includes a bibliographic guide to the current literature across interdisciplinary boundaries. Apart from legal, criminological, archeological and historical perspectives on theft, fraud and looting, this volume contains chapters on iconoclasm and graffiti, underwater cultural heritage, the trade in human remains and the trade, theft and forgery of papyri. The book thereby hopes to encourage scholars from a wider variety of disciplines to contribute their valuable knowledge to art crime research.

Dance as Text Mark Franko,2015 This is a historical and theoretical examination of French baroque court ballet from approximately 1573 until 1670. Spanning the late Renaissance and the Baroque, it brings aesthetic and ideological criteria to bear on court ballet libretti, period accounts, contemporaneous performance theory, and related commentary on dance and movement in literature. It studies the formal choreographic apparatus that characterises late Valois and early Bourbon ballet

spectacle and how its changing aesthetic ultimately reflected the political situation of the nobles who devised et performed court ballets.

Ancient Dramatic Chorus through the Eyes of a Modern Choreographer Katia Savrami, 2017-01-06 This book critically analyses the work of Zouzou Nikoloudi, a major Greek choreographer (1917-2004), and the way she presented, with her company Chorica, the choral odes of ancient Greek drama, especially tragedy. It also sheds light on the theoretical underpinnings of Nikoloudi's choreographic work, the result of her own research on this central problem in contemporary performances of ancient Greek drama, particularly the manner in which the ancient Greek chorus may be revived. More specifically, the book provides answers to several key questions concerning Nikoloudi's work, namely: What were her views about ancient dramatic art and how were they influenced by the School of Koula Pratsika and Expressionist Dance? Which elements from her own training did she apply to her teaching method for actors and dancers and to what extent do these elements correspond to our existing knowledge about ancient Greek tragic drama? How did she integrate her embodied experiences and aesthetics into praxis while choreographing with her company? The book examines the work of Nikoloudi in relation to ancient Greek views of tragedy and the ways in which those views have been reinterpreted in contemporary dance practice, thus elucidating both the work of a distinguished twentieth-century Greek choreographer and our understanding of classical Greek aesthetic theories.

The Secret Life of the Cheating Wife Alicia M. Walker, 2017-10-24 Using a sample collected from Ashley Madison, this book is the result of a yearlong inquiry into women's extramarital experiences. Ultimately, these women reject the binary proposition of marriage that assumes that either we work on our marriages and remain monogamous within them, or we break up the relationship and take up other relationships. These women conceive of an alternate solution to a marriage that is not wholly working, where their own needs are ignored, unmet, and not prioritized. Thus, the women in this study are engaging in secret defiance of the expectations of marriage and primary partnerships. This book gives voice to women's experiences and perceptions regarding their participation in infidelity, and glimpses into the interworkings of our most intimate relationships, and the ways women negotiate marriages that fall short of their expectations.

State Builders George Franklyn Willey, 1903

The Vanderbilt Women Clarice Stasz, New England Publishing Associates Inc, 2000-01-25 Lucius Beebe said that The nearest thing to a royal family that has ever appeared on the American scene was the Vanderbilts ... their vendettas, their

armies of servitors, partisans and sycophants, their love affairs, scandals, and shortcomings, all were the stuff of an imperial routine. Stasz reveals new facts and insights into the fascinating lives of three generations of Vanderbilt women who dominated New York society from the middle of the eighteenth century through the twentieth. Of special interest are the discovery of unpublished letters and a pseudonymous lesbian novel that shed light on the complex character of the most currently famous Vanderbilt woman, Gloria Vanderbilt.

The Art of Symbolic Resistance Joanne N. Smith Finley, 2013-09-12 Against the background of the Ürümchi riots (July 2009), this book provides a longitudinal study of contemporary Uyghur identities and Uyghur-Han relations. Previous studies considered China's Uyghurs from the perspective of the majority Han (state or people). Conversely, *The Art of Symbolic Resistance* considers Uyghur identities from a local perspective, based on interviews conducted with group members over nearly twenty years. Smith Finley rejects assertions that the Uyghur ethnic group is a 'creation of the Chinese state', suggesting that contemporary Uyghur identities involve a complex interplay between long-standing intra-group socio-cultural commonalities and a more recently evolved sense of common enmity towards the Han. This book advances the discipline in three senses: from a focus on sporadic violent opposition to one on everyday symbolic resistance; from state to 'local' representations; and from a conceptualisation of Uyghurs as 'victim' to one of 'creative agent'.

The Uyghurs Gardner Bovingdon, 2010 *The Uyghurs* is an original and significant contribution to the study of ethnic relations within the People's Republic of China. Very few foreign scholars have been able to study Xinjiang in such detail. Gardner Bovingdon's thoughtful discussion and comprehensive coverage make this must reading for anyone interested in contemporary China. -Peter C. Perdue, Yale University, author of *China Marches West: The Qing Conquest of Central Eurasia* *The Uyghurs* is a depth cast study of the failure of the Chinese government to integrate the Uyghurs, one of China's fifty-six nationalities, into the so-called great family of the nation. The book offers a unique perspective to understand the difficult and on-going process of Chinese nation-state building efforts. It is a must read for anyone who is interested in China's nationality issues and the rise of ethnic nationalism in the post-Cold War world. -Suishen Zhao, University of Denver, author *A Nation-State by Construction: Dynamics of Modern Chinese Nationalism* Gardner Bovingdon brings to this project fluency in both Uyghur and Chinese languages, a deep knowledge of Han and Uyghur society and the PRC political system, and a comparative perspective enriched by wide reading in social science literature on identity and nationalism. Though he focuses on political questions, Bovingdon displays a humanist's concern for his subjects as individuals and eschews social science jargon for elegantly turned phrases that crystallize the issues in a memorable way. -James Millward, Georgetown University, author of *Eurasian Crossroads: A History of Xinjiang* For more than half a century, many Uyghurs, members of a Muslim minority in northwestern China, have sought to achieve greater autonomy or outright independence. Yet the Chinese

government has consistently resisted these efforts, countering with repression and a sophisticated strategy of state-sanctioned propaganda that emphasizes interethnic harmony and Chinese nationalism. After decades of struggle, Uyghurs remain passionate about establishing and expanding their power within government, and China's leaders continue to push back, refusing to concede any physical or political ground. Beginning with the history of Xinjiang and its unique population of Chinese Muslims, Gardner Bovingdon follows fifty years of Uyghur discontent, particularly the development of individual and collective acts of resistance since 1949, as well as the role of various transnational organizations in cultivating dissent. Bovingdon's work provides fresh insight into the practices of nation building and nation challenging, not only in relation to Xinjiang but also in reference to other regions of conflict. His work highlights the influence of international institutions on growing regional autonomy and underscores the role of representation in nationalist politics, as well as the local, regional, and global implications of the war on terror on antistate movements. While both the Chinese state and foreign analysts have portrayed Uyghur activists as Muslim terrorists, situating them within global terrorist networks, Bovingdon argues that these assumptions are flawed, drawing a clear line between Islamist ideology and Uyghur nationhood.

Terror and Territory Stuart Elden, 2009 Today's global politics demands a new look at the concept of territory. From so-called deterritorialized terrorist organizations such as al-Qaeda to U.S.-led overthrows of existing regimes in the Middle East, the relationship between territory and sovereignty is under siege. Unfolding an updated understanding of the concept of territory, Stuart Elden shows how the contemporary war on terror is part of a widespread challenge to the connection between the state and its territory. Although the importance of territory has been disputed under globalization, territorial relations have not come to an abrupt end. Rather, Elden argues, the territory/sovereignty relation is being reconfigured. Traditional geopolitical analysis is transformed into a critical device for interrogating hegemonic geopolitics after the Cold War, and is employed in the service of reconsidering discourses of danger that include failed states, disconnection, and terrorist networks. Looking anew at the war on terror; the development and application of U.S. policy; the construction and demonization of rogue states; events in Lebanon, Somalia, and Pakistan; and the wars continuing in Afghanistan and Iraq, *Terror and Territory* demonstrates how a critical geographical analysis, informed by political theory and history, can offer an urgently needed perspective on world events.

Algebra Saunders Mac Lane, Garrett Birkhoff, 2023-10-10 This book presents modern algebra from first principles and is accessible to undergraduates or graduates. It combines standard materials and necessary algebraic manipulations with general concepts that clarify meaning and importance. This conceptual approach to algebra starts with a description of algebraic structures by means of axioms chosen to suit the examples, for instance, axioms for groups, rings, fields, lattices, and vector spaces. This axiomatic approach—emphasized by Hilbert and developed in Germany by Noether, Artin, Van der Waerden, et al., in the 1920s—was popularized for the graduate level in the 1940s and 1950s to some degree by the authors'

publication of *A Survey of Modern Algebra*. The present book presents the developments from that time to the first printing of this book. This third edition includes corrections made by the authors.

Building a Healthy Multi-Ethnic Church Mark DeYmaz, 2020-10-06 Through personal stories, proven experience, and a thorough analysis of the biblical text, *Building a Healthy Multi-Ethnic Church* illustrates both the biblical mandate for the multi-ethnic church and the seven core commitments required to bring it about. Mark DeYmaz, pastor of one of the most proven multi-ethnic churches in the country, writes from both his experience and his extensive study of how to plant, grow, and encourage more ethnically diverse churches. He argues that the homogenous unit principle will soon become irrelevant and that the most effective way to spread the gospel in an increasingly diverse world is through strong and vital multi-ethnic churches. Apart from ethnically and economically diverse relationships, we cannot understand others different from ourselves, develop trust for others who are different than us, and/or love others different than ourselves. Apart from understanding, trust, and love, we are less likely to get involved in the plight of others different than ourselves. Without involvement, nothing changes, and the disparaging consequences of systemic racism remain entrenched in our culture. Surely, it breaks the heart of God to see so many churches segregated ethnically or economically from one another, and that little has changed in the many years since it was first observed that eleven o'clock on Sunday morning is the most segregated hour in the land.

Organised Sexual Abuse Michael Salter, 2013 This book examines the sexual abuse of children by groups or networks. It reviews the debates and controversy surrounding organised abuse and examines case studies of 21 adults in Australia who experienced organised sexual abuse in childhood. Themes discussed include: the relationship between sexual abuse and organised abuse; debates on allegations and recovered memories; police responses; the contexts in which sexually abusive groups develop and operate; the role of religion and ritual in subcultures of organised sexual abuse; and the experience of adult and child victims in the criminal justice system and health system.
