The Deer Park Norman Mailer,1997 Desert D'Or is the fashionable Californian resort where Hollywood's elite converge when they need a break. It is an incestuous hothouse of a town - a haven for manipulators, film stars, lovers, pimps, producers, whores, gamblers, scriptwriters and cheats. Into this nightmare world of depravity arrives Sergius O'Shaughnessy, recently discharged from the Air Force, traumatised by his war experiences and trying to write the Great American Novel. But O'Shaughnessy's burning ambition begins to lose its edge; lured by greed and ruled by weakness, he soon becomes disturbingly familiar with the dangerous life of slick compromises and sexual follies... The Deer Park is a powerful and vigorous satire on Hollywood's excesses and corruption. Combining a savage imagination with a heightened documentary realism, Mailer paints an uncompromising and terrifying portrait of a decadent society lost in moral confusion and despair.

Building Strong Brands David A. Aaker,2012-10-01 As industries turn increasingly hostile, it is clear that strong brand-

building skills are needed to survive and prosper. In David Aaker's pathbreaking book, *MANAGING BRAND EQUITY*, managers discovered the value of a brand as a strategic asset and a company's primary source of competitive advantage. Now, in this compelling new work, Aaker uses real brand-building cases from Saturn, General Electric, Kodak, Healthy Choice, McDonald's, and others to demonstrate how strong brands have been created and managed. A common pitfall of brand strategists is to focus on brand attributes. Aaker shows how to break out of the box by considering emotional and self-expressive benefits and by introducing the brand-as-person, brand-as-organisation, and brand-as-symbol perspectives. A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands. Aaker shows how to manage the brand system to achieve clarity and synergy, to adapt to a changing environment, and to leverage brand assets into new markets and products. As executives in a wide range of industries seek to prevent their products and services from becoming commodities, they are recommitting themselves to brands as a foundation of business strategy. This new work will be essential reading for the battle-ready.

Futurism Lawrence S. Rainey,Christine Poggi,Laura Wittman,2009 In 1909, F.T. Marinetti published his incendiary Futurist Manifesto, proclaiming, "We stand on the last promontory of the centuries!!" and "There, on the earth, the earliest dawn!" Intent on delivering Italy from "its fetid cancer of professors, archaeologists, tour guides, and antiquarians," the Futurists imagined that art, architecture, literature, and music would function like a machine, transforming the world rather than merely reflecting it. But within a decade, Futurism's utopian ambitions were being wedded to Fascist politics, an alliance that would tragically mar its reputation in the century to follow. Published to coincide with the 100th anniversary of the founding of Futurism, this is the most complete anthology of Futurist manifestos, poems, plays, and images ever to bepublished in English, spanning from 1909 to 1944. Now, amidst another era of unprecedented technological change and cultural crisis, is a pivotal moment to reevaluate Futurism and its haunting legacy for Western civilization.

Old Turkic Word Formation Marcel Erdal,1991

The Archaeology of the Eastern Nevada Paleoarchaic Charlotte Beck,George Thomas Jones,2009 The Sunshine Locality in the geographic center of the Great Basin is the focus of this volume of historical research and recent archeological studies including analyses of sedimentary textures and structure, depositional processes and chronology, faunal remains used to evaluate local and regional environmental changes, and a few hypothesis to unresolved questions about the paleoenvironmental resources at this rich and unique site.

A Grammar of Old Turkic Marcel Erdal, 2004-09-01 For the first time, a linguistic description of Old Turkic (7th to 13th centuries) is presented, dealing with phonology, morphophonology and subphonemic phenomena as reflected in numerous scripts, derivational and inflectional morphology, syntax and coherence, the lexicon and stylistic, dialect and diachronic variation.

Old Uyghur Documents Concerning the Postal System of the Mongol Empire Márton Vér, 2019 It is well known that the Mongols recognized the need for a fast and reliable flow of information and commercial goods at an early stage of their conquests. This necessity led to the establishment of an empire-wide postal relay system. Unprecedented in both size and efficiency, the pan-Eurasian network of messengers and postal stations became one of the Chinggisids' most important imperial institutions. This new volume of the *Berliner Turfantexte* presents an edition and English translation (with detailed commentary) of the surviving Old Uyghur documents related to the postal system of the Mongol Empire (13th-14th centuries), many of which are previously unpublished. Mostly preserved in the Berlin Turfan collection, these unique texts were unearthed in the Turfan region and in the vicinity of Dunhuang. Comprising a range of administrative records and other documents with links to the postal system, they provide multiple snapshots of its operation at local and regional level. Their study therefore enables us to examine the postal system from a completely different point of view than that found in previous reconstructions, which tended to focus on narrative sources. Exposing administrative strata and regional nuance, the work sheds new light on this vital aspect of imperial Mongol rule. The book concludes with a bibliography, indices and tables of concordance. This work will be of interest for specialists in Turkology, Mongolian studies, medieval Central Eurasian history, information history and the Mongol Empire.
