The Deer Park Norman Mailer, 1997 Desert D'Or is the fashionable Californian resort where Hollywood's elite converge when they need a break. It is an incestuous hothouse of a town - a haven for manipulators, film stars, lovers, pimps, producers, whores, gamblers, scriptwriters and cheats. Into this nightmare world of depravity arrives Sergius

O'Shaughnessy, recently discharged from the Air Force, traumatised by his war experiences and trying to write the Great American Novel. But O'Shaughnessy's burning ambition begins to lose its edge; lured by greed and ruled by weakness, he soon becomes disturbingly familiar with the dangerous life of slick compromises and sexual follies... The Deer Park is a powerful and vigorous satire on Hollywood's excesses and corruption. Combining a savage imagination with a heightened documentary realism, Mailer paints an uncompromising and terrifying portrait of a decadent society lost in moral confusion and despair.

A Soldier of the Seventy-First Thomas Howell, 1975 First published in 1819, this memoir covers Whitelocke's disastrous South American adventure in 1806, the Peninsular War, the Walcheren expedition and the Battle of Waterloo - where he narrowly escaped death. A cannonball struck the ground in front of him, knocked him head-over-heels and shattered his musket.

America, the Vietnam War, and the World Andreas W. Daum, Lloyd C. Gardner, Wilfried Mausbach, 2003-07-14 Publisher's description: This book presents new perspectives on the Vietnam War, its global repercussions, and the role of this war in modern history. The volume reveals 'America's War' as an international event that reverberated all over the world: in domestic settings of numerous nation-states, combatants and non-combatants alike, as well as in transnational relations and alliance systems. The volume thereby covers a wide geographical range-from Berkeley and Berlin to Cambodia and Canberra. The essays address political, military, and diplomatic issues no less than cultural and intellectual consequences of 'Vietnam'. The authors also set the Vietnam War in comparison to other major conflicts in world history; they cover over three centuries, and develop general insights into the tragedies and trajectories of military conflicts as phenomena of modern societies in general. For the first time, 'America's War' is thus depicted as a truly global event whose origins and characteristics deserve an interdisciplinary treatment.

The British and the Vietnam War Nicholas Tarling, 2017-01-20 During the presidency of Lyndon Johnson, the British government sought to avoid escalation of the war in Vietnam and to help bring about peace. The thinking that lay behind these endeavours was often insightful and it is hard to argue that the attempt was not worth making, but the British government was able to exert little, if any, influence on a power with which it believed it had, and needed, a special relationship. Drawing on little-used papers in the British archives, Nicholas Tarling describes the making of Britain's Vietnam policy during a period when any compromise proposed by London was likely to be seen in Washington as suggestive of defeat, and attempts to involve Moscow in the process over-estimated the USSR's influence on a Hanoi determined on reunification.

Assuming the Burden Mark Atwood Lawrence, 2007-04-24 That decision, he argues, marked America's first definitive

step toward embroilment in Indochina, the start of a long series of moves that would lead the Johnson administration to commit U.S. combat forces a decade and a half later.--Jacket.

All the Way with JFK? Peter Busch,2003 In *All the Way with JFK?* Peter Busch shatters many a myth about Anglo-American relations and the Vietnam War. Demolishing the scholarly consensus that Britain was in constant pursuit of peace in Indochina, he shows that the British government ruled out a negotiated settlement, advised John F. Kennedy to conceal the American military build-up, and helped to put the blame for the escalating conflict squarely on the communist regime in Hanoi. Simultaneously, Britain increased its own involvement in the conflict by sending Robert Thompson as the head of a team of counter-insurgency experts to South Vietnam. The detailed analysis of the British Advisory Mission disproves the oft-repeated view that Thompson was the brain behind the strategic hamlet programme, in which Kennedy and his administration put so much faith. However, the British experts were convinced of the programme's eventual success, and Thompson told Kennedy in 1963 that the South Vietnamese were winning the war. Drawing on newly released documents from archives in Britain, the United States, Canada, Australia, New Zealand, and East Germany, the compelling story of Britain's involvement in Vietnam is set in the context of the Cold War in South-East Asia. While Britain was en route to getting more deeply involved in Vietnam, Indonesia's confrontation policy re-focused London's attention to the Malayan area in 1963. Britain wanted to demonstrate to the world, and particularly to President Kennedy, the Australians, and the New Zealanders, that it was still willing and able to safeguard Commonwealth interests in South-East Asia. Indeed, Whitehall's unequivocal defence commitment to Malaysia, coupled with the British military build-up in the area, was completely consistent with Britain's Vietnam policy. *All the Way with JFK?* proves that the British could not think of a viable alternative to Kennedy's Vietnam policy that might have helped the US avoid the quagmire. Far from playing the role of peacemaker, Britain supported Kennedy's policy of seeking a decisive military victory in Vietnam.

The Search for Peace in Vietnam, 1964-1968 Lloyd C. Gardner, Ted Gittinger,2004-12-10 *The Search for Peace in Vietnam, 1964-1968*, the newest edition in the Texas A&M University Press Series on Foreign Relations and the Presidency, is a collection of essays that analyze the Vietnam War in terms of its significance to the global arena. Under the guidance of

editors Lloyd C. Gardner and Ted Gittinger, the contributors, representing both communist and capitalist backgrounds, examine whether the Vietnam War was responsible for the transformation of the international system, using a formula postulated by series editor H. W. Brands, which looks at the international system at the beginning of the war and at the end, and measuring how much of the difference in the two periods is the result of the war. Topics include Robert J. McMahon's assessment of the war's legacy to Southeast Asia; Xiaoming Zhang's analysis of Chinese involvement as an element in the Sino-Soviet rivalry; Ilya Gaiduk's account of the Soviet Indochina policy within the context of Moscow's relations with the outside world; Judith A. Klinghoffer's examination of the war's role in determining American foreign policy in the Middle East; Hiroshi Fujimoto's discussion of whether America's Cold War policy of regionalism affected Japan's economic prosperity; and other analyses by H. W. Brands, Lloyd C. Gardner, Robert K. Brigham, Frank Costigliola, Kil J. Yi, and Quang Zhai. John Prados ends the book questioning whether the Vietnam War was, in essence, just a sideshow in international relations and attempts to understand the war's place in the world and its impact on the place of the United States. The Search for Peace in Vietnam, 1964-1968 brings together a diverse group of scholars representing various viewpoints and backgrounds regarding the Vietnam War. The book breaks free from the mold of many American analyses of Vietnam, which place the war solely in the context of America's involvement and detriment, and endeavors to look further for both causes and effects. A true scholarly work, The Search for Peace in Vietnam, 1964-1968 challenges readers to think about this pivotal point in international history in a new way.
