The Deer Park Norman Mailer,1997 Desert D'Or is the fashionable Californian resort where Hollywood's elite converge when they need a break. It is an incestuous hothouse of a town - a haven for manipulators, film stars, lovers, pimps, producers, whores, gamblers, scriptwriters and cheats. Into this nightmare world of depravity arrives Sergius O'Shaughnessy, recently discharged from the Air Force, traumatised by his war experiences and trying to write the Great American Novel. But O'Shaughnessy's burning ambition begins to lose its edge; lured by greed and ruled by weakness, he soon becomes disturbingly familiar with the dangerous life of slick compromises and sexual follies... The Deer Park is a powerful and vigorous satire on Hollywood's excesses and corruption. Combining a savage imagination with a heightened

documentary realism, Mailer paints an uncompromising and terrifying portrait of a decadent society lost in moral confusion and despair.

Euahlayi Tribe - A Study of Aboriginal Life in Australia K.Langloh Parker,2006-10 An exclusive work by Parker, it focuses on the customs, beliefs, traditions and folk-lore of Australian Aborigines. This is Parker's personal account of her intimacy which developed when she lived among the people of the Euahlayi tribe. She started to take interest in their culture after her rescue by a native girl of this tribe. Superb!...

Tiki Elena Govor,Nicholas Thomas,2019-03-26 Created across the six islands of a remote archipelago in eastern Polynesia, the art of the Marquesas is one of the world's most distinctive and remarkable art traditions. Though exhibited in major museums around the world, Marquesan art is nevertheless poorly understood, and the formation of collections still largely unresearched. This book documents and explores the most extensive early collection from the archipelago. In May, 1804, participants in the first Russian voyage round the world, usually known as the Krusenstern expedition after the principal commander, spent twelve days at the island of Nuku Hiva. Inspired by the science and collecting associated with the voyages of Captain James Cook, the mariners interacted with Islanders, and made extensive collections of artifacts. While the lives of the collectors and exchanges among scientists led to these artifacts being widely dispersed, the research reported here has identified some 200 objects collected during the voyage which are now in museums in Russia, Estonia, Germany, Switzerland and the Netherlands. The outcome of years of work in museum stores and archives, Tiki reassembles a collection of exceptional importance. A set of essays contextualize these precisely provenanced artifacts historically, and in the life and environment of the Marquesas Islands. For the first time, this heritage is made accessible to Islanders themselves, and to interested scholars and curators.

Anthropology's Global Histories Rainer F. Buschmann,2008-10-31 Anthropologists and world historians make strange bedfellows. Although the latter frequently employ anthropological methods in their descriptions of cross-cultural exchanges, the former have raised substantial reservations about global approaches to history. Fearing loss of specificity, anthropologists object to the effacing qualities of techniques employed by world historians—this despite the fact that anthropology itself was a global, comparative enterprise in the nineteenth century.Rainer Buschmann here seeks to recover some of anthropology's global flavor by viewing its history in Oceania through the notion of the ethnographic frontier—the furthestmost limits of the anthropologically known regions of the Pacific. The colony of German New Guinea (1884-1914) presents an ideal example of just such a contact zone. Colonial administrators there were drawn to approaches partially inspired by anthropology. Anthropologists and museum officials exploited this interest by preparing large-scale expeditions to German New Guinea. Buschmann explores the resulting interactions between German colonial officials, resident ethnographic collectors, and indigenous peoples, arguing that all were instrumental in the formation of anthropological

theory. He shows how changes in collecting aims and methods helped shift ethnographic study away from its focus on material artifacts to a broader consideration of indigenous culture. He also shows how ethnological collecting, often a competitive affair, could become politicized and connect to national concerns. Finally, he places the German experience in the broader context of Euro-American anthropology. Anthropology's Global Histories will interest students and scholars of anthropology, history, world history, and Pacific studies.

Unwrapping Tongan Barkcloth Fanny Wonu Veys, 2017-01-26 Tongan barkcloth, made from the inner bark of the paper mulberry tree, still features lavishly in Polynesian ceremonies all over the world. Yet despite the attention paid to this textile by anthropologists and art historians alike, little is known about its history. Providing a unique insight into Polynesian material culture, this book explores barkcloth's rich cultural history, and argues that its manufacture, decoration and use are vehicles of creativity and female agency. Based on twelve years of extensive ethnographic and archival research, the book uncovers stories of ceremony, gender, the senses, religion and nationhood, from the 17th century up to the present-day. Placing the materiality of textiles at the heart of Tongan culture, Veys reveals not only how barkcloth was and continues to be made, but also how it defines what it means to be Tongan. Extending the study to explore the place of barkcloth in the European imagination, she examines international museum collections of Tongan barkcloth, from the UK and Italy to Switzerland and the USA, addressing the bias of the European 'gaze' and challenging traditional gendered understandings of the cloth. A nuanced narrative of past and present barkcloth manufacture, designs and use, *Unwrapping Tongan Barkcloth* demonstrates the importance of the textile to both historical and contemporary Polynesian culture.

Iberian Visions of the Pacific Ocean, 1507-1899 R. Buschmann, 2014-10-28 In this work, Buschmann incorporates neglected Spanish visions into the European perceptions of the emerging Pacific world. The book argues that Spanish diplomats and intellectuals attempted to create an intellectual link between the Americas and the Pacific Ocean.

Tattoo Nicholas Thomas, Anna Cole, Bronwen Douglas, 2005-04-29 Whether fully adorning a biker's arms or nestled cutely, and discretely, above one's ankle, tattoos are a commonplace part of modern fashion and expression. But as modern as this permanent accessory can seem, the tattoo, in fact, has ancient and distant roots in Oceania, where it had been practiced for centuries before being taught to Western seafarers. This collection offers both a fascinating look at the early exchanges between European and Pacific cultures surrounding the tattoo and the tattoo's rising popularity in the West up to the modern day. It is also the first book to thoroughly document the history of tattoos in Oceania itself. The essays here first document the complex cultural interactions between Oceania and Europe that had sailors, whalers, and explorers bringing tattoos home from their voyages. They then move on to issues surrounding encounter, representation, and exchange, exploring the ways missionaries and the colonial state influenced local tattoo practices, and the ways tattoo culture has since developed, both in the West and the Pacific. Stunningly illustrated, this unique and fascinating history will appeal to anyone interested in the

history of tattoos, the culture of Oceania, or native arts.

The Return of Curiosity Nicholas Thomas, 2016-08-15 The Spy Museum, the Vacuum Cleaner Museum, the National Mustard Museum—not to mention the Art Institute, the Museum of Modern Art, and the Getty Center: museums have never been more robust, curating just about everything there is and assuming a new prominence in public life. *The Return of Curiosity* explores museums in the modern age, offering a fresh perspective on some of our most important cultural institutions and the vital function they serve as stewards of human and natural history. Reflecting on art galleries, science and history institutions, and collections all around the world, Nicholas Thomas argues that, in times marked by incredible insecurity and turbulence, museums help us sustain and enrich society. Moreover, they stimulate us to think in new ways about our world, compelling our curiosity and showing us the importance of understanding one another. Thomas looks at museums not simply as storehouses of old things but as the products of meaningful relationships between curators, the public, history, and culture. These relationships, he shows, don't always go smoothly, but they do always offer new insights into the many ways we value—and try to preserve—the world we live in. The result is a refreshing and hopeful look at museums as a cultural force, one that, by gathering together paintings, tropical birds, antiques, or even our own bodies, offers an illuminating reflection of who we are.

The Necessary Man Agnes Logan, 1929

Navigating the Spanish Lake Rainer F. Buschmann, Edward R. Slack, James B. Tueller, 2014-05-31 *Navigating the Spanish Lake* examines Spain's long presence in the Pacific Ocean (1521-1898) in the context of its global empire. Building on a growing body of literature on the Atlantic world and indigenous peoples in the Pacific, this pioneering book investigates the historiographical "Spanish Lake" as an artifact that unites the Pacific Rim (the Americas and Asia) and Basin (Oceania) with the Iberian Atlantic. Incorporating an impressive array of unpublished archival materials on Spain's two most important island possessions (Guam and the Philippines) and foreign policy in the South Sea, the book brings the Pacific into the prevailing Atlanticcentric scholarship, challenging many standard interpretations. By examining Castile's cultural heritage in the Pacific through the lens of archipelagic Hispanization, the authors bring a new comparative methodology to an important field of research. The book opens with a macrohistorical perspective of the conceptual and literal Spanish Lake. The chapters that follow explore both the Iberian vision of the Pacific and indigenous counternarratives; chart the history of a Chinese mestizo regiment that emerged after Britain's occupation of Manila in 1762-1764; and examine how Chamorros responded to waves of newcomers making their way to Guam from Europe, the Americas, and Asia. An epilogue analyzes the decline of Spanish influence against a backdrop of European and American imperial ambitions and reflects on the legacies of archipelagic Hispanization into the twenty-first century. Specialists and students of Pacific studies, world history, the Spanish colonial era, maritime history, early modern Europe, and Asian studies will welcome *Navigating the Spanish Lake* as a

persuasive reorientation of the Pacific in both Iberian and world history.

Oceans in World History Rainer Buschmann, 2006-09-08 This book explores cross-cultural encounters in the context of exploration, migration, and trade across the world's oceans. From the early migrations of Austronesian peoples to the increasing globalization of recent centuries, it examines trans-oceanic communication and exchange as a major motor of transformation in World History, providing readers with better appreciation of how oceans connect human societies, rather than separate them.
