Design Your Dream Wedding Rings Calla Gold, 2019-01-25 Your wedding rings are the most important pieces of jewelry you'll ever have. As a symbol of love and a pledge of faithfulness they hold much. Making them unique is a fun and creative process. Author Calla Gold believes there is a jewelry designer in each one of us and that the jeweler's job is to ask questions and help find that design inside of you. In this book you'll find examples of textures and details that add definition to your design, that evoke a feeling or vibe. You'll see how your lifestyle effects your ring design choices. You'll read stories like the way Marlo and Ben used family diamonds in their designs, how the right shaped center diamond helped Kaitlyn's short fingers look longer, and how a Rock and Roll drummer chose a special finish to make his fiancé's ring pop. Questions like these will be answered; what's the difference between platinum and white gold? What engraving techniques are out there and which ones would work for you? Is rose gold a safe choice with tiny prongs? What's the difference between the engagement ring and the wedding band? What are good gemstone alternatives to a diamond in the center? This book is your guide to creating your dream engagement and wedding rings.

Blue Nile, Inc Alan Nathan Hoffman, 2011 Built on the premise of making engagement rings selection simpler, Blue Nile, Inc. (formerly known as Internet Diamonds, Inc.) has developed into the largest online retailer of diamond engagement rings. Unlike traditional jewelry retailers, Blue Nile operates completely store-front-free, without in-person consultation services. The business conducts all sales online or by phone and sales include both engagement (70%) and non-engagement (30%) categories. Therefore, the company focuses on perfecting its online shopping experience and providing extraordinary jewelry, useful guidance, and easy-to-understand jewelry education to help you find the jewelry that's perfect for your occasion. Blue Nile's vision is to educate its customer base so that customers can make an informed, confident decision no matter what event they are celebrating. It wants to make the entire diamond-buying-process easy and hassle-free. In addition, an important part of Blue Nile's vision, as CEO Diane Irvine said in a recent webinar with Kaihan Krippendorf, is for the company to be seen as the smart way to buy diamonds, while saving 20-40% more than one would in the typical jewelry store. Blue Nile is working to become the Tiffany for the next generation.

Poison Panic Helen Barrell, 2016-08-31 True crime that “will appeal to readers interested in gaining an insight into the lives of women accused of murder in the mid 19th century” (Essex Family Historian). For a few years in the 1840s, Essex was

notorious in the minds of Victorians as a place where women stalked the winding country lanes looking for their next victim to poison with arsenic. Though that terrible image may not have much basis in truth, it was a symptom of an anxiety-filled time . . . The 1840s were also known as the “hungry ’40s,” when crop failures pushed up food prices and there was popular unrest across Europe. The decade culminated in a cholera epidemic in which tens of thousands of people in the British Isles died. It is perhaps no surprise that people living through that troubled decade were captivated by the stories of the “poisoners”: that death was down to “white powder” and the evil intentions of the human heart. Sarah Chesham, Mary May, and Hannah Southgate are the protagonists of this tale of how rural Essex, in a country saturated with arsenic, was touched by the tumultuous 1840s. “Barrell’s meticulous research and eye for detail recreate lurking threats, and these scandalous true stories are as compelling as any crime fiction.” —History of War “An intriguing read that brings a forgotten history to light and reveals past attitudes to women—and a national fear that gripped Victorian Britain.” —Family Tree Magazine “This book will fascinate not only historians of true crime and those with an interest in genealogy but any reader seeking a story that would make Agatha Christie proud.” —All About History

American Catholics in the Protestant Imagination Michael P. Carroll, 2007-11-12 Michael P. Carroll argues that the academic study of religion in the United States continues to be shaped by a Protestant imagination that has warped our perception of the American religious experience and its written history and analysis. In this provocative study, Carroll explores a number of historiographical puzzles that emerge from the American Catholic story as it has been understood through the Protestant tradition. Reexamining the experience of Catholicism among Irish immigrants, Italian Americans, Acadians and Cajuns, and Hispanics, Carroll debunks the myths that have informed much of this history. Shedding new light on lived religion in America, Carroll moves an entire academic field in new, exciting directions and challenges his fellow scholars to open their minds and eyes to develop fresh interpretations of American religious history.

Opera, Or, The Undoing of Women Catherine Clement, 1988 This was the first work to have applied a systematised feminist theory to opera. It concentrates on the stories & text of opera, that perhaps have more relevance today in a growing literature than it had when it was the sacrilegious pioneering work.

Charles-Edouard Brown-Séquard Louis-Cyril Celestin, 2013-11-19 Genius and diletantism often go hand in hand. Nowhere is this truer than in the life of Charles-Edouard Brown-Séquard, the bilingual physician and neurologist who succeeded Claude Bernard as the Chair of Experimental Medicine at the College de France in Paris after having practiced in

Paris, London and in the USA, especially in Harvard. For most men, making one discovery of global importance would have sufficed to satisfy their curiosity and self-image. Not so Brown-Séquard. His explanation of the neurological disparity following the hemi-section of the spinal cord was a unique achievement that added his name to the syndrome and made him immortal. Yet, the demons of his mind tormented him in his endless search for medical truths and drove him to explore other phenomena, seeking to explain and remedy them. This unique biography shows for the first time the conflict between his professional and personal life, and should appeal to all students of medical history and psychology.
