Landscapes Clear and Radiant Wen Fong,Hui Wang,Chin-Sung Chang,Maxwell K. Hearn,2008 Wang Hui, the most celebrated painter of late-seventeenth-century China, played a key role both in reinvigorating past traditions of landscape painting and in establishing the stylistic foundations for the imperially sponsored art of the Qing court. Drawing upon his protean talent and immense ambition, Wang developed an all-embracing synthesis of historical landscape styles that constituted one of the greatest artistic innovations of late imperial China. This comprehensive study of the painter, the first published in English, features three essays that together consider his life and career, his artistic achievements, and his masterwork - the series of twelve monumental scrolls depicting the Kangxi emperor's Southern Inspection Tour of 1689. The first essay, by Wen C. Fong, closely examines Wang Hui's genius for repossessing the past, his ability to engage in an inventive dialogue with previous masters and to absorb their stylistic personae while making works that were distinctly his own. Chin-Sung Chang next traces the entire trajectory of Wang's development as an artist, from his precocious youth in the village of Yushan, through growing local and national fame - first as a copyist, then as the creator of groundbreaking panoramic landscapes - to the ultimate confirmation of his stature with the commission to direct the Southern Inspection

Tour project. Focusing on this extraordinary eight-year-long effort, Maxwell K. Hearn's essay discusses the contemporary sources for the scrolls, the working methods of Wang and his assistants (comparing drafts with finished versions), and the artistic innovations reflected in these imposing works, the extant examples of which measure more than two feet high and from forty-six to eighty-six feet long. This publication accompanies the exhibition Landscapes Clear and Radiant: The Art of Wang Hui (1632-1717), held at The Metropolitan Museum of Art, New York, from September 9, 2008, through January 4, 2009.--BOOK JACKET.

The Piano Book Larry Fine,1994 This bible of the piano marketplace is indispensable to buyers and owners of pianos, amateur and professional players alike. Hundreds of thousands of pianos are bought and sold each year, yet most people buy a piano with only the vaguest idea of what to look for as they make this major purchase. The Piano Book evaluates and compares every brand and style of piano sold in the United States. There is information on piano moving and storage, inspecting individual new and used pianos, the special market for Steinways, and sales gimmicks to watch out for. An annual supplement, sold separately, lists current prices for more than 2,500 new piano models.
