The Fall of Heaven Andrew Scott Cooper, 2016-08-02 An immersive, gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow, Empress Farah, Iranian revolutionaries and US officials from the Carter administration In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi, Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern, pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created, and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries; President Jimmy Carter and White House officials; US Ambassador William Sullivan and his staff in the American embassy in Tehran; American families caught up in the drama; even Empress Farah herself, and the rest of the Iranian Imperial family. Intimate and sweeping at once, *The Fall of Heaven* recreates in stunning detail the dramatic and final days of one of the world's most legendary ruling families, the unseating of which helped set the stage for the current state of the Middle East.

Sugar in Our Wounds Donja R. Love, 2019-03-15 On a plantation somewhere down south, a mystical tree reaches up toward heaven. Generations of slaves have been hanged on this tree. But James is going to be different, as long as he keeps his head down and practices his reading. Moreover, as the Civil War rages on, the possibility of freedom looms closer than ever. When a stranger arrives on the plantation, a striking romance emerges, inviting the couple and those around them into uncharted territory.

A Concise History of Russia Paul Bushkovitch, 2011-12-05 Accessible to students, tourists and general readers alike, this book provides a broad overview of Russian history since the ninth century. Paul Bushkovitch emphasizes the enormous changes in the understanding of Russian history resulting from the end of the Soviet Union in 1991. Since then, new material

has come to light on the history of the Soviet era, providing new conceptions of Russia's pre-revolutionary past. The book traces not only the political history of Russia, but also developments in its literature, art and science. Bushkovitch describes well-known cultural figures, such as Chekhov, Tolstoy and Mendeleev, in their institutional and historical contexts. Though the 1917 revolution, the resulting Soviet system and the Cold War were a crucial part of Russian and world history, Bushkovitch presents earlier developments as more than just a prelude to Bolshevik power.

Raphael to Renoir Stijn Alsteens, Metropolitan Museum of Art (New York, N.Y.), National Gallery of Scotland, 2009 The works from the Bonna Collection are illustrated in color, and whenever possible, at their actual sizes. They are arranged chronologically by the artist's date of birth and are grouped according to the main artistic schools. This volume is introduced by an interview with Jean Bonna by George Goldner. Each drawing is then described in an entry, many of which have

Landscapes Clear and Radiant Wen Fong, Hui Wang, Chin-Sung Chang, Maxwell K. Hearn, 2008 Wang Hui, the most celebrated painter of late-seventeenth-century China, played a key role both in reinvigorating past traditions of landscape painting and in establishing the stylistic foundations for the imperially sponsored art of the Qing court. Drawing upon his protean talent and immense ambition, Wang developed an all-embracing synthesis of historical landscape styles that constituted one of the greatest artistic innovations of late imperial China. This comprehensive study of the painter, the first published in English, features three essays that together consider his life and career, his artistic achievements, and his masterwork - the series of twelve monumental scrolls depicting the Kangxi emperor's Southern Inspection Tour of 1689. The first essay, by Wen C. Fong, closely examines Wang Hui's genius for repossessing the past, his ability to engage in an inventive dialogue with previous masters and to absorb their stylistic personae while making works that were distinctly his own. Chin-Sung Chang next traces the entire trajectory of Wang's development as an artist, from his precocious youth in the village of Yushan, through growing local and national fame - first as a copyist, then as the creator of groundbreaking panoramic landscapes - to the ultimate confirmation of his stature with the commission to direct the Southern Inspection Tour project. Focusing on this extraordinary eight-year-long effort, Maxwell K. Hearn's essay discusses the contemporary sources for the scrolls, the working methods of Wang and his assistants (comparing drafts with finished versions), and the artistic innovations reflected in these imposing works, the extant examples of which measure more than two feet high and from forty-six to eighty-six feet long. This publication accompanies the exhibition *Landscapes Clear and Radiant: The Art of Wang Hui (1632-1717)*, held at The Metropolitan Museum of Art, New York, from September 9, 2008, through January 4, 2009.--BOOK JACKET.

The Piano Book Larry Fine, 1994 This bible of the piano marketplace is indispensable to buyers and owners of pianos, amateur and professional players alike. Hundreds of thousands of pianos are bought and sold each year, yet most people buy a piano with only the vaguest idea of what to look for as they make this major purchase. The Piano Book evaluates and compares every brand and style of piano sold in the United States. There is information on piano moving and storage, inspecting individual new and used pianos, the special market for Steinways, and sales gimmicks to watch out for. An annual supplement, sold separately, lists current prices for more than 2,500 new piano models.

Flight of the Serpent Val Davis, 1998 Nick Scott is back in the desert, this time leading a university-funded dig of her own in a ghost town near Boot Hill in Arizona. Walking into a canyon in search of cave-dwelling ruins left by ancient Anasazi, Nick hears the unmistakable sound of helicopters right before stumbling across the downed wreckage of what was once the plane of reporter Matt Gault. Joining forces with John Gault, Matt's grandfather, Nick quickly finds herself taken from the world of academic archeology into a world of government subterfuge and murder. Swept up in the mystery, and determined to uncover the truth, Nick and Gault call together the crew of a WW II B-24 Liberator for one last mission under the blazing skies of the Arizona sun.
