I Love Those Earrings Jane Merrill, Chris Filstrup, 2013 Earrings can talk-of mourning a dead king, supporting a revolution, or resisting an emperor. They have carried the message that a proper Victorian believed in Darwin, and that a woman invited a lover to her bed. Raid the jewelry boxes of the glamorous, legendary, and everyday chic women alike. See what earrings they have worn, when, and why, in ways that bespeak their way of life and personality, and how jewelry carries family and cultural heritage with style. Looking at earrings as tiny sculptures, here are details about gems, settings, and fixtures. Lavishly embellished with over 300 images of jewelry ranging from the Byzantine era to the contemporary artisan, the styles of design, relationships to dress, portraiture and symbolism, and other aspects of adornment are elaborated upon. With research-based anecdotes and her own life in earrings, the author tells a story that will engage anyone interested in celebrities, monarchies, and the barely recorded lives of women of the past, and, of course, anyone who loves beautiful jewelry.

Sky Sofie Indesteege, 2019-03-10 And so I do. Tell you. Crazy, you say. You're not. A boy. You're a girl. You're so feminine, fine. How did you come up with that? I'm not sure, I say. But it's what I feel, right now. And so we go. Out. For dinner.

500 Earrings Marthe Le Van, 2007 Poring through the beautiful images in this exquisite gallery of earrings is like stepping inside a jewelry store filled with remarkable pieces from the finest contemporary jewelers. The earrings range from the classic to the avant-garde and come from an international array of artists.

Without Any Stars Aeon B. Scott, 2014-09-30 The world would be dark Without Any Stars. Dive deep into an adventure, where the world we have known has collapsed and a start of a brand new world begins. Star Mirror represents a new race that God mirrored from the last Earth inhabitants called humans and from the night skies constellations. For each constellation that falls under an animal, a curse, called the circle of life, the Star Mirrors gain their personalities and traits, but the heavens remain out of reach. Follow Vail as he struggles with the eternal conflict of light and darkness. Vail is a part of the near extinct Vulpecula clan, who was sent with the Lupus, to a far-off island to be safe from the crown. There, Vail meets two of his best friends who are being tempted by darkness. Will Vail overcome the darkness, or perhaps succumb to it? We all cast shadows, but shadows can only be cast with light. The difference between the two is how we balance both light

and dark, which constantly fight deep within our hearts. Without Any Stars by Aeon B. Scott is a fantasy that deals with the deep darkness that lies true within our hearts.

Open Hearts Jane Seymour, 2008-12-23 If Your Heart Is Open, Love Will Always Find Its Way In. An open heart is a universal symbol of giving and receiving love. This precious keepsake companion perfectly compliments the elegant jewelry designed by Emmy Award-winning actress Jane Seymour for her debut line exclusive to Kay Jewelers. Open Hearts reflects life's joys, heartaches, and inspirations and symbolizes that only when you can love yourself and keep your heart open are you able to give and receive love. This theme is celebrated through a collection of poems, essays, quotes, and Jane Seymour's equally inspirational Healing Hearts paintings. The coalescence of words and art speak to every kind of love in people's lives. They prove that it's a force that flows unconditionally, because if your heart is open, it can never stay broken.

Chocolate Diamonds Alec Peche, Tatiana Vila, 2014-06-07 Chocolate Diamonds is a murder mystery that is set in Europe. Dr. Jill Quint, vintner from California and consulting forensic medical examiner joins her three friends from Wisconsin in Antwerp, Belgium to enjoy their annual girlfriends' vacation. Jo's ancestry resides in this country and she is looking forward to exploring her heritage. They all plan to enjoy the museums of Belgium and the Netherlands, as well as the food and especially the beer of the region. A chance medical emergency pulls Jill and her friends into a homicide investigation assisting the Belgian Police and Interpol with uncovering something worth killing for in the diamond industry. Who was the woman in the restaurant that Jill and Marie performed CPR on, and why did she die in the hospital after they had her stabilized- it was just an unusual nut allergy? Angela, the photographer of the group of friends begins to capture faces of men who want to kill them or kidnap them and along the way she meets Nick who helps them stay alive. The friends do what they can to give Nick and Angela's budding relationship a chance. Jo learns to navigate European financial and tax records with the help of an accountant from Interpol. She is usually oblivious to the strangers around her, but on this vacation paying attention become a requirement as they have to run from several kidnap attempts. Marie has been exploring people's backgrounds worldwide in her day job in the US. Always a multi-tasker, she is a real sleuth at ferreting out the hidden facts and identities for anyone, all while standing in line to buy a ticket at a museum. Nathan, Jill's partner, doesn't want to miss out on the excitement. He joins the ladies in Brussels and plans to visit some of his wine clients while he is in that region. As a world class wine label artist, he has clients that he designs bottle labels for in most parts of the world. He soon finds opportunities to use his Hapkido skills disarming Jo's assailant, joining Nick in providing some security for the women. Diamonds are mined in many parts of the world, but the miners are not always treated fairly. Antwerp is the acknowledged diamond industry hub of the world. Many chocoholics believe that the best chocolate artists in the world reside in Belgium. Jill and her friends stumble upon the intersection of chocolate and diamonds in this murder mystery This is book two of the Jill Quint forensic pathologist series, a follow up to "Vials", the first book in this murder mystery series. A

Making Trouble Greg Valerio, 2013-09-20 Fair trade jewellery has been around for a while - but while those crafting it worked under Fair Trade principles, the gold, silver and precious stones they were using came from some very murky places. Small scale mining is the second biggest global employer, and many of those mines pay a pittance, forcing their workers to labour long hours in dirty and dangerous conditions - for a pittance. Informed by those in the jewellery trade that this would never change, Greg Valerio set out to prove them wrong. Fairly traded gold is now available in the UK, although the battle continues for other metals and products.
