Hear the Wind Blow Doe Boyle, 2021-03-01 Chicago Public Library Best Informational Books for Younger Readers 2021 The Best Children's Books of the Year 2022, Bank Street College STARRED REVIEW! An artful blend of language, illustration, and science.—Kirkus Reviews starred review You can almost feel the wind in this explanation of the Beaufort scale, with science and rhythmic verse. The stages of the Beaufort wind scale, portrayed with precision and also with poetic free verse, style, and imagination. It will stretch readers' imaginations as we see the wind pick up from a kiss of air, to a gentle breeze that shivers the shifting grasses, to a roiling hurricane that makes tree roots shudder.

A Voice on the Wind, and Other Poems Madison Cawein, 2017-09-05

The Wind, the Kite, the String Edwin Willwerth, 2007-12 Two great writers and their books that have had an influenced on me in the writing of this book are Jonathan Swifts (1667-1745) and John Bunyan (1628-1688). Jonathan Swift masterpiece titled 'Gulliver's Travels' was an allegorical attack on the hypocrisy of the human behavior that he witnessed in almost every level of life in England, especially on the political stage. John Bunyan was the author of another famous allegorical book about a soul in search of salvation-'Pilgrim's Progress.' I do not believe this book will in any way approach the level of these two great masterpieces, but like Swift and Bunyan, I too have some comments about the behavior of my fellow Spacelanders (as I like to refer to them). What do they really believe in? What have they committed and dedicated

their lives to? Because I believe the answers to these questions are the determining factors of their behavior. Like all allegorical books you will need a great imagination. But as Oscar Wilde said, Imagination is a quality given man to compensate him for what he is not, and a sense of humor was provided to console him for what he is. Edwin Willwerth has been married for over fifty years and is the father of three children. He was a high school mathematics teacher for thirty years. Besides teaching in several public and private schools within the United States, he has also taught in Paraguay for one year, Nepal for two years and China for six months. He has been very active in his local church, serving for a number of years as a Sunday School teacher and later as head of the Sunday School Department. He was the Missionary Director within his church for several years. He has also spent time on Missionary projects in Haiti and Campeche, Mexico.

Wind Stories Leigh Allison Wilson,1989 Each of these stories is a portrait of American life, lived in the small upstate New York town of Oswego.

Wind Louise M. Pryke,2023-08-15 A natural and cultural history of wind from ancient deity to Twister. By turns creative and destructive, wind spreads seeds, fills sails, and disperses the energy of the sun. Worshipped since antiquity, wind has molded planets, determined battles, and shaped the evolution of life on earth—yet this invisible element remains intangible and unpredictable. In this book, Louise M. Pryke explores wind’s natural history as well as its cultural life in myth, religion, art, and literature. Beyond these ancient imaginings, Pryke also traces how wind inspired modern scientific innovations and appeared in artistic works as diverse as the art of Van Gogh, the poetry of Keats, and the blockbuster film.
