Fashion Collections Nicola Misani, Paola Varacca Capello, 2017-09 This book aims to analyze the logics and instruments by which fashion companies create collections, taking into account the variety of companies' characteristics and business models. The collection development process is a critical activity for fashion, that must continuously renew its products, and is subject to increasingly strict time, cost and quality goals. A central theme in the book is the complexity of managing the collection development process, due to the number of operations that must be carried out and the variety of actors involved. In addition, there are outside actors, such as the raw material suppliers or manufacturers, that can participate in the development processes. There must also be interaction between the creative and managerial competences present in the company. For all of these reasons, fashion collection development requires extraordinary coordination and integration abilities. This book is the product of the work and efforts of various authors, from both the academic and professional worlds. It also features numerous examples from the fashion industry. Book jacket.

Brussels Fashion Guide Stephanie Duval, 2011 Brussel' fashion scene is not as renowned as the one in Antwerp, but it's no doubt all the more interesting, because it's different. The capital's inhabitants dress themselves à la carte, instead of blindly following the dictates of fashion designers. You can see this in bars and clubs all around the city, but of course also in Brussels main shopping areas, i.e. the trendier-than-ever Dansaert area, its sidestreets, the Avenue Louise, and lately, even in the cobble-stoned streets of the city centre. Brussels has got a lot to offer, and this fashion guide will tell you exactly where to go.
