Fashion Collections Nicola Misani, Paola Varacca Capello, 2017-09 This book aims to analyze the logics and instruments by which fashion companies create collections, taking into account the variety of companies' characteristics and business models. The collection development process is a critical activity for fashion, that must continuously renew its products, and is subject to increasingly strict time, cost and quality goals. A central theme in the book is the complexity of managing the collection development process, due to the number of operations that must be carried out and the variety of actors involved. In addition, there are outside actors, such as the raw material suppliers or manufacturers, that can participate in the development processes. There must also be interaction between the creative and managerial competences present in the company. For all of these reasons, fashion collection development requires extraordinary coordination and integration abilities. This book is the product of the work and efforts of various authors, from both the academic and professional worlds. It also features numerous examples from the fashion industry. Book jacket.

Fashion film Nick Rees-Roberts, 2020 The moving image has become a key marketing tool for luxury fashion, central in enabling brands to shape their visual codes and extend their brand awareness. Fashion Film is the first detailed study of the shifting shape of fashion imagery in the digital age, investigating the role of the moving image in the promotion, communication and spectacle of contemporary fashion. Combining interdisciplinary analysis of cinema and digital culture, this ground-breaking book traces the emergence of fashion film in the 21st century through its historical roots in pre-digital forms of photography, experimental cinema, mass-media advertising and documentary film-making, right up to today's visual

spread of contemporary fashion on video blogs, online magazines and live-streamed catwalk shows. Examining collaborations between fashion designers and pioneering image-makers such as Guy Bourdin, Jean-Paul Goode, William Klein and Nick Knight, the book highlights the critical tension between the fashion film conceived as a creative endeavour and as commercial enterprise. Fashion Film also includes a parallel focus on factual representations of fashion through the recent rise of documentary fashion film that goes behind the scenes to follow the processes and personalities involved in making fashion. Accessible and well-illustrated, Fashion Film will appeal to students and scholars of fashion, film, media, photography, celebrity, sociology and cultural studies--Bloomsbury Collections.
