Collection process Armelle Claudé,Vale´rie Praquin,2021-05-01 Fashion creation, production and sales. This book brings you behind the scenes to understand how fashion collections are born, organized and manufactured. Though the industry may be fragmented, the collection process itself is universal in the phases which compose it and the collaborators involved. The work proposes a parallel between the work methods of a creative” and a ready-to-wear designer. ABOUT THE AUTHORS After studies in graphic design in Maryse Eloy school of arts, Armelle Claudé also study interior design in Camondo. There, she discover a passion for fashion and graduate from ESMOD, ready-to-wear course. She start as assistant for Nathalie Garçon during 3 years and then work for brands like Bill Tornade ; Gérard Pasquier ; 1, 2, 3 or Ellesse as freelancer. In 2001, she found, with Eric Rabiller, a creation and consulting agency Rose pour les filles, bleu pour les garçons ... She also share her passion with the new generations, teaching in parisian fashion schools. A graduate of Studio Berçot and having earned a certificate in textile design, Valérie Praquin has worked in the ready-to-wear and luxury industries. After being first assistant, production manager and collection coordinator for Véronique Leroy and then studio director for Jean-Paul Knott, she joined the Institut Français de la Mode in 2004 where she coordinates production for student prototypes in the post-graduate clothing and accessories design program and organizes exhibitions. In recent years she has also channeled her expertise into teaching.

The Fundamentals of Fashion Management Susan Dillon, 2017 The Fundamentals of Fashion Management provides an in-depth look at the changing face of today's fiercely competitive fashion industry. Providing invaluable behind-the-scenes insights into the roles and processes of the industry, this book combines creative and business approaches for all those seeking to gain a solid understanding of what it means to work in the fashion sector. Packed with new visuals, case studies and exercises, The Fundamentals of Fashion Management also contains new interviews with key players from different sectors in the global fashion industry, including with a fashion forecaster, a brand account manager, a fashion buyer, a digital marketing manager, fashion journalist, and a fashion entrepreneur. With an additional new chapter on entrepreneurship and management, this a must-have handbook for all those looking to create successful business practice in fashion management, marketing, buying, retailing and related fields.--Bloomsbury Publishing.

Fashion Collections Nicola Misani, Paola Varacca Capello, 2017-09 This book aims to analyze the logics and instruments by which fashion companies create collections, taking into account the variety of companies' characteristics and business models. The collection development process is a critical activity for fashion, that must continuously renew its products, and is subject to increasingly strict time, cost and quality goals. A central theme in the book is the complexity of managing the collection development process, due to the number of operations that must be carried out and the variety of actors involved. In addition, there are outside actors, such as the raw material suppliers or manufacturers, that can participate in the development processes. There must also be interaction between the creative and managerial competences present in the company. For all of these reasons, fashion collection development requires extraordinary coordination and integration abilities. This book is the product of the work and efforts of various authors, from both the academic and professional worlds. It also features numerous examples from the fashion industry. Book jacket.

Fashion Saga Catherine Örmén, 2011 Histoire de la Confection et du Prêt-à-porter mais également histoire d'une saga familiale, cet ouvrage relate le parcours d'Alexis Lavigne, Maître tailleur, mais surtout formidable visionnaire, qui va poser

ses propres fondements techniques dans le domaine de la Mode. Innovant, Alexis Lavigne s'attachera toute sa vie, par son analyse du corps humain, à faire avancer et connaître la mode parisienne, notamment grâce à ses inventions, entre autres, celle du centimètre souple et du buste mannequin. Humaniste, c'est en ouvrant son atelier pour le transformer en école que commence l'histoire méconnue de la plus ancienne école de mode parisienne... poursuivie depuis par ses descendants de coeur. 170 ans d'innovations au service de l'Elégance et du Bien-être !

Brussels Fashion Guide Stephanie Duval, 2011 Brussel' fashion scene is not as renowned as the one in Antwerp, but it's no doubt all the more interesting, because it's different. The capital's inhabitants dress themselves à la carte, instead of blindly following the dictates of fashion designers. You can see this in bars and clubs all around the city, but of course also in Brussels main shopping areas, i.e. the trendier-than-ever Dansaert area, its sidestreets, the Avenue Louise, and lately, even in the cobble-stoned streets of the city centre. Brussels has got a lot to offer, and this fashion guide will tell you exactly where to go.
