Life along Communication Routes from the Roman Period to the Middle Ages Ivana Ožanić Roguljić, Jere Drpić, Angelina Raičković Savić, 2023-12-21 This volume presents the latest research on Roman roads, not just in terms of their basic infrastructure but also exploring various aspects of life that were connected with it, from the Imperial period to that of decline, acculturation and integration of new identities, within the three Roman provinces of Pannonia, Moesia and Dalmatia.

Armed Batavians Johan Nicolay, 2007 Using a life-cycle model for Roman soldiers, Johan Nicolay interprets the large quantity of first-century finds as personal memorabilia brought home by ex-soldiers as a reminder of their twenty-five years of service and a symbol of their newly-acquired veteran status. Underpinning Nicolay's research is an extensive inventory of militaria from urban centers, rural settlements, rivers, and graves—presented in nearly one hundred individual color plates. Introducing a considerable body of unpublished data, as well as offering a perspective on daily life in the northern frontier of the Roman Empire, this volume is a valuable addition to Roman military and material history.

Eckweek, Peasedown St John, Somerset Andrew Young, 2020-05-10 This volume presents the results of archaeological survey and excavation at Eckweek, Somerset, which yielded one of the most important medieval rural settlement sequences yet excavated from south-west England. At the centre of the narrative is a succession of well-preserved buildings spanning the late 10th to the 14th centuries A.D. forming the nucleus of a Domesday manor and its Late Saxon precursor. Detailed analysis of the structural sequence offers a new regional perspective on pre-Conquest earthfast timber architecture and its subsequent (12th-century) replacement by masonry traditions. Culminating in a richly preserved 14th-century farmhouse, including a very complete assemblage of structural and domestic objects, the structural archaeology provides an unusually refined picture of the internal organisation of later medieval domestic space within a rural farming setting. Detailed analytical attention is given to the abundant artefactual and environmental datasets recovered from the excavations (including prolific assemblages of medieval pottery and palaeoenvironmental data) with a nuanced appraisal of their

interpretative implications. Anyone with an interest in the dynamics and regional complexity of medieval rural communities will find this a stimulating and enlightening read.
