Gems and Precious Stones of North America George Frederick Kunz,2016-11-16 Excerpt from Gems and Precious Stones of North America: A Popular Description of Their Occurrence, Value, History, Archaeology, and of the Collections in Which They Exist, Also a Chapter on Pearls and on Remarkable Foreign Gems Owned in the United States The daily yield from the

coal and iron mines, or from the South African diamond mines, or a week's yield of the granite quarries, would exceed in value the entire output of precious stones found in the United States during a year. Systematic search for gems and precious stones has been carried on in only two States Maine and North Carolina. Otherwise, the gems are found accidentally, in connection with other substances that are being mined, or in small veins which are only occasionally met with, as the turquoise in Mexico. They are often gathered on the surface, as is the case with garnet or olivine from Arizona and New Mexico; or in sluicing for gold, as the sapphires from Montana; or in connection with mica mining, as the beryl from Connecticut and North Carolina; or from the beds of streams and decomposing rocks, as the moss-agate from Wyoming; or on the beaches, as the agate, chlorastrolite, and thomsonite from the shores of Lake Superior. **Diamonds and Precious Stones** Harry Emanuel, 2017-12-04 Excerpt from *Diamonds and Precious Stones: Their History, Value, and Distinguishing Characteristics, With Simple Tests for Their Identification* At the time that the African diamond fields were discovered there was only one diamond cutter in London. Dutchmen were accordingly engaged to work in London from Monday morning till Friday sunset, and they were 1 to receive 10 per week each man. There was a very large supply of rough diamonds to be cut, so they struck several times successfully for higher wages. They would allow no person to be in the room that they worked in, being afraid the secrets of their art might be discovered. At last they demanded 18 per week each man, when they were discharged and English precious gem cutter-aware put at the work. At first they were only able after a deal of trouble to cut a class of diamond in one month which they could now cut in about four days. As soon as it was clearly proved that Englishmen had once more gained the art, the Worshipful Company of Turners had their attention called to it by their Past Masters, the late Professor Tennant, the Queen's Mineralogist, and Mr. John 'Jones.' They at once decided to give English cutters every encouragement, and have, with the valuable assistance of the Baroness and Mr. Burdett-Coutts, who are both members of this company, offered money awards in competition against the Dutch for the best cut diamonds. After several contests the Englishmen gained the first prize and most of the others. Great credit and thanks are due to this company and the Baroness and Mr. Burdett-Coutts for giving such valuable assistance to this industry. *Diamonds and Precious Stones, a Popular Account of Gems. Containing Their History, Their Distinctive Properties, and a Description of the Most Famous Gems* Louis Dieulafait, Fanchon Sanford, 2017-11-10 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Clare Hunter, author of *Threads: A History of the World Through the Eye of a Needle* 'This is - fittingly - a gem of a book. Rich descriptions, fascinating histories and, at times, just pure, dazzling bling. A joy to read.' ..... To turn the pages of PRECIOUS is to open an extraordinary treasure trove of stories. Travelling through moments in history and layers of soil and sediment, this is the glittering history of our world through a totally new lens. Discover the fragile emerald watch that survived cross-continental journeys and centuries under the floorboards of a London house, uncovered in 1912 by workmen who might have destroyed it with one wrong placement of a pick axe. Unearth the immense ritualistic significance of jade to ancient cultures across China, Central America and the Pacific, where it has been considered a symbol of life and a bridge to the afterlife for thousands of years. Learn of the Burmese warriors who believed so strongly in the connection between rubies and lifeblood that they embedded them into their skin before battle to protect them from harm. Journey back through the generations of women who wore pearls as a signifier of femininity and marvel at the role these glistening objects have played in changing depictions of feminism - from Marie Antoinette to Marilyn Monroe, Elizabeth Taylor to Coco Chanel. In this sumptuous and sweeping history of humanity's love affair with jewels, the V&A's Senior Jewellery Curator Helen Molesworth takes you behind the curtain of what you see in a museum or fetching vast sums on the auction floor, illuminating the deeply human stories that lie behind them.
