Blues & Gospel Records, 1890-1943 Robert M. W. Dixon, John Godrich, Howard Rye, 1997 Since its first edition, in 1964, Dixon and Godrich's *Blues and Gospel Records* has been dubbed 'the bible' for collectors of pre-war African-American music. It provides an exhaustive listing of all recordings made up to the end of 1943 in a distinctively African-American musical style, excluding those customarily classed as jazz (which are the subject of separate discographies). The book covers recordings made for the commercial market (whether issued at the time or not) and also recordings made for the Library of Congress Archive of Folk Song and similar bodies -- about 20,000 titles in all, by more than 3,000 artists. For each recording session, full details are given of: artist credit, accompaniment, place and date of recording, titles, issuing company and catalogue numbers, matrix numbers and alternate takes. There are also short accounts of the major 'race labels', which recorded blues and gospel material, and a complete list of field trips to the south by travelling recording units. Howard Rye has joined the original compilers for this thoroughly revised fourth edition. The scope has been enlarged by the addition of about 150 new artists, in addition to newly discovered recordings by other artists. Early cylinder recordings of gospel music, from the 1890s, are also included for the first time. Previous editions of this work were applauded for their completeness, accuracy, and reliability. This has now been enhanced by the addition of new information from record labels and from record company files, and by listening to a wide selection of titles, and detailed cross-checking.

SIERRA LEONE Narayan Changder, 2023-01-13 This book is primarily designed for students preparing for various competitive examinations. It will also be helpful for those preparing for midterm exams in schools or universities. The aim of this book is twofold: first, to help the students preparing for competitive examinations, seeking admission to universities or schools, or prepare for job interviews. Second, it will also be helpful for those studying SIERRA LEONE. This book contains more than 61 questions from the core areas of SIERRA LEONE. The questions are grouped chapter-wise. There are total 1 chapters, 3 sections and 61+ MCQ with answers. This reference book provides a single source for multiple choice questions

and answers in SIERRA LEONE. It is intended for students as well as for developers and researchers in the field. This book is highly useful for faculties and students. One can use this book as a study guide, knowledge test questions bank, practice test kit, quiz book, trivia questions . . . etc. The strategy used in this book is the same as that which mothers and grandmothers have been using for ages to induce kids in the family to sip more soup (or some other nutritious drink). The children are told that some cherries (their favourite noodles or cherries) are hidden somewhere in the bowl, and that serves as an incentive for drinking the soup. In joint families, by the time the children are old enough to know the trick played by their grandma, there is usually another group of kids ready to fall for it! They excite the kids, but the real nutrition lies not in the noodles but in the soup. The problems given in this book are like those noodles/cherries while solving all these problems are nutritious soup. Now it is your choice to drink the nutritious soups or not!!!.
